2025-2026 Local Education Provider Level Discrimination/Harassment Type - Suppressed 21

Executive Summary

In response to growing concerns about harassment and discrimination in schools, the Colorado General Assembly enacted S.B. 23-296 and H.B. 24-162, now codified as C.R.S. 22-1-143. This statute affirms the right of every Colorado student to an educational environment free from discrimination and harassment, while strengthening legal protections and mandating proactive measures by Local Education Providers (LEPs).

C.R.S. 22-1-143 builds upon federal Title IX requirements by extending protections to students on the basis of their actual or perceived membership in one or more protected classes, including disability, race, creed, color, sex, sexual orientation, gender identity, gender expression, family composition, religion, age, national origin, and ancestry. The statute was further amended during the 2026 legislative session to include the new categories of pregnancy and parental status; however, the information in this report pertains to the law as it existed during the 2025-26 school year. The law ensures that students who experience discrimination or harassment receive a prompt, equitable investigative process, clear communication regarding their rights and complaint status, and access to supportive measures or accommodations. Under the statute, LEPs are required to:

- Adopt written policies prohibiting harassment and discrimination.
- Establish procedures for reporting and investigating complaints.
- Provide appropriate supports and accommodations to affected students.
- Train all staff in identifying, reporting, and responding to incidents.
- Submit annual aggregate data to the Colorado Department of Education (CDE)

CDE conducted its second year of Prevent Harassment and Discrimination data collection through the Data Pipeline during the 2025–2026 school year, building on the inaugural collection conducted in 2024–2025. Participation remained consistent across the two years, with 184 LEPs submitting data in 2024–2025 and 185 LEPs submitting data in 2025–2026. The number of reports of discrimination and/or harassment decreased from 5,886 in 2024–2025 to 4,873 in 2025–2026. In 2024–2025, 3,431 reports were confirmed as discrimination and/or harassment following investigation, compared with 2,808 in 2025–2026. The number of reports confirmed as involving no discrimination or harassment also decreased, from 2,455 in 2024–2025 to 2,065 in 2025–2026. Across both years, sex and race were among the most frequently reported categories. Disability was among the three most frequently reported categories in 2024–2025, while sexual orientation was among the three most frequently reported categories in 2025–2026. Together, these two years of data provide an emerging statewide picture of reported discrimination and harassment and establish a foundation for monitoring reporting patterns over time.

This report, submitted to the Sexual Misconduct Advisory Committee, provides a comprehensive summary of the second annual Prevent Harassment and Discrimination data collection, including statewide, district-level, and Charter School Institute (CSI) data, as well as breakdowns by discrimination and harassment type.

Prevent Harassment and Discrimination: Introduction and Background

C.R.S. 22-1-143 establishes important obligations for Local Education Providers (LEPs) to prevent and respond to harassment and discrimination, including adopting policies, providing supportive measures, training employees, and conducting investigations. In addition to these responsibilities, the statute requires schools and charter schools to collect and report data on harassment and discrimination incidents.

Specifically, each school and charter school must report to its district or, for charter schools, to the Charter School Institute (CSI):

- The number of formal harassment or discrimination reports received, including the category type identified when harassment or discrimination is substantiated; and
- The time taken to complete each investigation and issue findings for each report.

Each district and CSI then aggregates the school-level data and submits it to the Colorado Department of Education (CDE) annually through the Prevent Discrimination and Harassment (PHD) data collection. The PHD data collection provides a statewide overview of harassment and discrimination trends and ensures a consistent, statewide system for tracking harassment and discrimination incidents.

Key dates for annual reporting include:

- August 1: Districts and CSI submit aggregated data to CDE.
- October 1: CDE reports aggregated findings to the Sexual Misconduct Advisory Committee.

Limitations of the data:

- The data does not include bullying incidents unless they meet the statutory definition of harassment or discrimination.
- CDE data suppression rules have been applied (n<16).
- The reporting focuses on formal reports and investigation outcomes, not informal reports or unsubstantiated incidents.

Prevent Harassment and Discrimination: State Aggregate Data

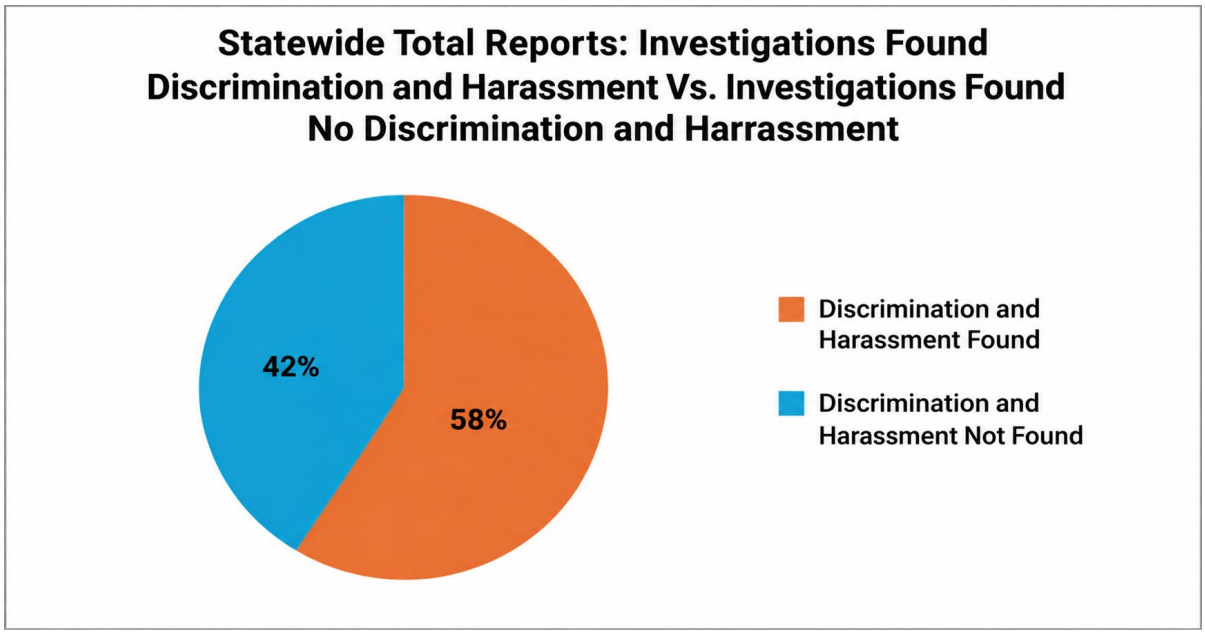

A total of 185 Local Education Providers (LEPs) participated and provided data through the 2025-26 Prevent Discrimination and Harassment (PHD) data collection, comprising all 179 school districts—including the Charter School Institute—five BOCES (Centennial, San Juan, Expeditionary, Education reEnvisioned, and Colorado River), and the Colorado School for the Deaf and Blind represented in Table 1. Of these, 77 LEPs reported at least one incident of discrimination or harassment, while 108 reported zero incidents.

Table 1:Description of Local Education Provider (LEP) Reporting

LEP Descriptor	Number
School Districts	178
BOCES	5
Charter School Institute	1
Colorado School for the Deaf and Blind	1
Total Number of LEPs Reporting	185

LEPs disclosed 4,873 reports of discrimination and/or harassment. Of these, 42% (2,065) were determined to involve no confirmation of discrimination and/or harassment, while 58% (2,808) involved confirmed discrimination and/or harassment following the LEPs' investigations represented in Figure 1.

Figure 1: Statewide Total Reports

Colorado LEPs investigated 4,873 reports of discrimination and harassment in 2025-26. 2,808 reports confirmed discrimination and harassment. Of these, 2,650 reports submitted to CDE confirmed one protected class category of discrimination and harassment. Incidents of discrimination and harassment can span multiple protected categories, including disability, race, creed, color, sex, sexual orientation, gender identity, gender expression, family composition, religion, age, national origin, and ancestry. 153 reports submitted to CDE confirmed multiple protected class categories of discrimination and harassment. Overall, sex was the most frequently reported category, accounting for 1,324 confirmed incidents of discrimination and harassment, followed by race with 863 confirmed incidents. Creed had the fewest, with 5 confirmed incidents.

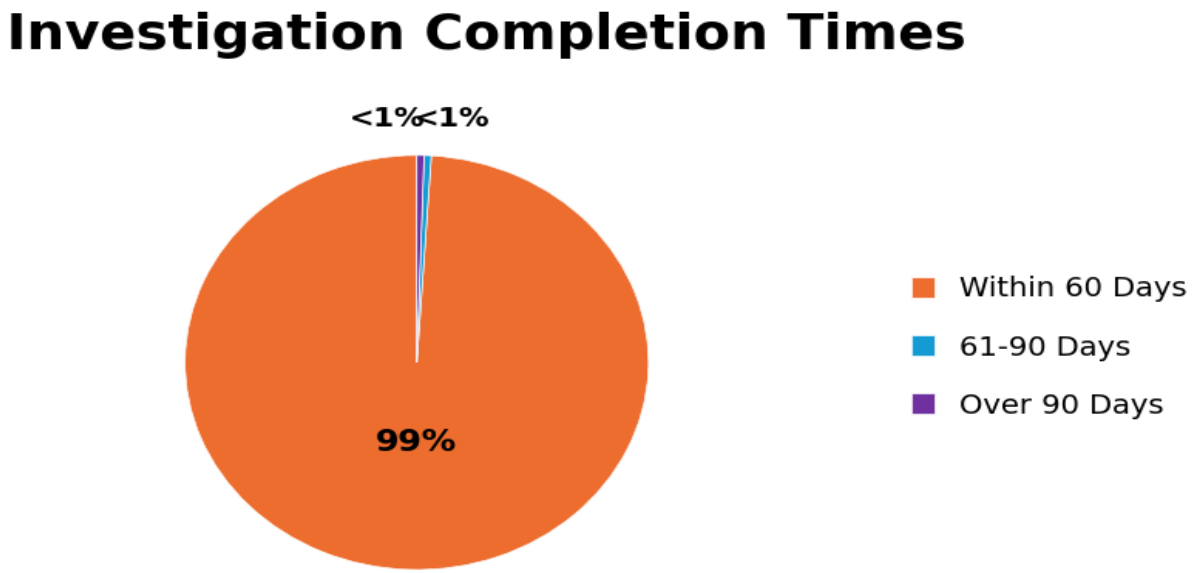

Table 2: Categories When Discrimination and Harassment was Confirmed

Discrimination/Harassment Type	Total # of Incidents
Sex	1,324
Race	863
Sexual Orientation	184
Disability	152
Religion	113
National Origin	108

Discrimination/Harassment Type	Total # of Incidents
Color	86
Gender Identity	59
Gender Expression	36
Family	26
Ancestry	16
Creed	5
Age	8
Total Number of Incidents when Discrimination/Harassment Confirmed	5,045

Colorado LEPs also reported the duration required to complete investigations into alleged discrimination and/or harassment. Of the 4,873 reports submitted by LEPs—some involving multiple discrimination categories—LEPs investigated a total of 5,045 incidents of reported discrimination and harassment. Of these, 99% (4,984) were resolved within 60 days, <1% (25) within 61-90 days, and <1% (36) took more than 90 days. Figure 2 summarizes investigation timelines across all participating LEPs.

Figure 2: Investigation Times for all Reported Cases, Non-suppressed Data

Colorado LEPs were also required to submit data for investigation times by discrimination/harassment category for each report submitted. LEPs investigated a total of 5,045 incidents of alleged discrimination and harassment represented in 4,873 reports submitted to CDE.

Table 3 presents the investigation completion timelines for the 4,873 reports submitted by LEPs—some involving multiple discrimination categories.

Table 3: 2025-2026 Discrimination and Harassment Category Type and Investigation Completion

Discrimination and Harassment Category	Total	Investigation Completion within 60 school days	Investigation Completion within 61 and 90 school days	Investigation Completion exceeded 90 school days
Disability	152	150	2	0

Total	5,045	4,984	25	36

Prevent Harassment and Discrimination: Local Education Provider (LEP) Data

To protect student privacy and maintain data integrity, LEP-level results are suppressed when incident counts are too small to report publicly, per CDE's Data Confidentiality and Security Policy. CDE applied the data suppression rule of less than 16 when preparing this report. Table 4 provides a summary of reported incidents by LEP (District, CSI, BOCES, and Colorado School for the Deaf and Blind) where discrimination and/or harassment was confirmed or not found. While 108 LEPs in Table 4 reported zero incidents, it is important to note that suppressed data does not necessarily indicate the absence of incidents. Instead, suppression ensures confidentiality where reporting fewer than a minimum number of cases could risk the identification of individual students.

Appendix A presents supplemental data from the 2025–2026 Prevent Discrimination and Harassment (PHD) data collection, including Local Education Provider (LEP)-level breakdowns by type of discrimination and harassment. To safeguard student privacy and uphold data integrity, LEP-level results are suppressed when incident counts fall below the public reporting threshold. In preparing this report, the Colorado Department of Education (CDE) applied a suppression rule for counts fewer than 16.

Conclusion

The 2025–2026 Prevent Harassment and Discrimination (PHD) data collection builds on the baseline established through the inaugural 2024–2025 collection and provides a second year of statewide data on harassment and discrimination across Colorado's Local Education Providers (LEPs). Participation remained consistent, with 185 LEPs reporting in 2025–2026 compared with 184 LEPs in 2024–2025. The continued participation provides an important foundation for examining reporting patterns over time and identifying opportunities to strengthen implementation of the reporting requirements set forth by S.B. 23-296.

The second year of data collection expands the statewide baseline and provides an additional point of comparison for understanding reporting patterns across LEPs. Although participation remained consistent, the number of reports submitted, and the number of reports confirmed as involving discrimination and/or harassment decreased in 2025–2026. The available data do not, by themselves, establish the reasons for these changes. Across both years, sex and race were among the most frequently reported categories, while the prominence of other categories varied between years. Continued collection will provide additional information needed to assess trends over time and strengthen CDE's ability to understand statewide reporting patterns and support implementation of S.B. 23-296.

CDE also continued to refine the data collection process in response to lessons learned from the initial collection. CDE clarified the definition of "formal report" in the file layout definitions to provide greater guidance and promote greater consistency in how LEPs interpret and report this data element. CDE clarified that a "formal report" is a report of alleged misconduct or discrimination filed by a complainant, as defined in statute, pursuant to a local education provider's policy, for which (1) an investigation or review of the facts occurred, and (2) a determination or finding was made as to whether the situation constituted discrimination or harassment under state or federal law and/or the LEP's policies. Continued refinement of data element definitions, guidance, and professional learning will support ongoing efforts to improve the consistency and quality of data submitted by LEPs.

As additional years of PHD data are collected, CDE will have greater capacity to examine trends and patterns in reported harassment and discrimination, including changes in reporting, investigation outcomes, and reported categories over time. A growing longitudinal dataset will also support more comprehensive analyses of LEP implementation of the requirements under C.R.S. 22-2-143, while helping CDE identify areas where additional guidance, training, or targeted support may be beneficial.
