EPINEPHRINE TRAINING
Managing Allergies and Anaphylaxis at School

Unlicensed school personnel assigned to students with allergies and are at risk for anaphylaxis **must** complete annual emergency medication training to administer emergency epinephrine.

Unlicensed school personnel interested in training on the administration of epinephrine available in the school's emergency cabinets will complete the same annual training.

PLEASE COMPLETE ALL FOUR STEPS BELOW AND CONTACT YOUR BUILDING NURSE FOR QUESTIONS

Step #1

Click the link to view the "Managing Allergies and Anaphylaxis at School" Training and Epi pen administration. **VIEW TRAINING NOW**

Step #2

Students may carry different types of epinephrine auto injectors. Please select the device your student carries to access the appropriate training. Epi Pen, Auvi-Q, Neffy Nasal Spray

Click the Generic Epi Pen link to view a video demonstrating how to use an Epi pen which is stocked in our Epi pen cabinets throughout the district.

Step #3

Click the link to complete the "Managing Allergies and Anaphylaxis at School" Post Test. COMPLETE POST TEST NOW > print and submit the form to the building nurse.

Step #4

Please see your building nurse to complete in-person training.
