The following are our updates from this week for Capital Improvements:

Nelson Elementary

- Roof work is complete, and contractors are now finishing minor touch-ups.

Freeman Elementary

- Roof work is complete, and crews have turned their attention to the enclosed walkway, which is progressing quickly. Maintenance staff finished installing the carpet this week, and contractors are continuing site preparation to complete the walkway.
- The new kitchen layout is almost done, and work in that area will begin soon afterwards.

Oatville Elementary

- Roof replacement is underway on the north end of the building and is approximately 25% complete. Crews will continue until the work is finished. During Thanksgiving Break, contractors will begin replacing select heating and air units on the north end of the building.

Campus High School

- Flooring: Crews have addressed a list of items to complete, and a professional cleaning crew is scheduled over Thanksgiving Break to clean all tiled areas.
- HVAC: Installation of new heating and air units will begin on D Building in the next few weeks.
- Hallway Tile: Work is scheduled to begin over Thanksgiving Break and will continue on weekends and through Winter Break until completion.
- CTE Addition: Construction is progressing well, and the building pad is now being poured.
