Golden Fairy

Chloe Thomson ‘28

Once upon a time, a soft kiss goodnight turned into a wish from a dancing golden fairy and a swift trip to the emergency room. The night before her first dance recital, a four-year-old Chloe allowed her mother's earring back to grant her a wish. A new mother to two raging toddlers, she didn't notice the golden creature inside her daughter's ear until Chloe danced in front of a crowd, dazzling the parents with her newly gifted skills. After witnessing the sparkling object plaguing her daughter, it took many doctors to get the fairy to fly away. Tears were shed.
