PINEWOOD AMERICAN INTERNATIONAL SCHOOL

AP Pathways and Destinations

Europe · Class of 2026

What an admission to a selective European university actually rests on — traced through the full Advanced Placement record of the graduates who earned one.

THESSALONIKI, GREECE · AUGUST 2026

WHERE THEY ARE GOING

Nine graduates, nine institutions, six countries — every one of them reached through Advanced Placement.

IRELAND
University College Dublin

FRANCE
ESSEC Business School

UNITED KINGDOM
Royal Holloway, University of London
Durham University

NETHERLANDS
University College Utrecht
Leiden University

POLAND
University of Warsaw

GERMANY
Constructor University
Leuphana University of Lüneburg

CLASS OF 2026

AP Pathways and Destinations in Europe

This appendix is not the graduating class in full. It is a selected group of graduates continuing to universities in Europe, assembled to show what such an admission typically rests on. For each student the complete Advanced Placement record is set out — every exam sat from Grade 9 through Grade 12, not only the 2026 session — alongside the university and programme they will enter. No student is named or otherwise identified.

Read together, these pathways make a consistent point. Admission to a selective European university is rarely won on a single strong year. It rests on a sustained record built across several grades, with breadth across departments and a clear line of subjects pointing toward the chosen programme.

PINEWOOD AMERICAN INTERNATIONAL SCHOOL

Advanced Placement opened every one of these doors.

From Dublin to Utrecht, Warsaw to Lüneburg, each of these graduates walked into a selective university carrying an Advanced Placement record that admissions officers understood immediately. That is what the AP programme does at its best: it speaks a language that universities across Europe already read fluently, and it lets a student from Thessaloniki stand confidently alongside applicants from anywhere in the world.

These pathways began in Grade 9 and 10 classrooms, in students choosing the harder course when an easier one was available. We congratulate every graduate here, and we look forward with real confidence to the classes who will follow them.
