**Proposed new language for Student Handbook**

***Student Transportation and Walking to School:***

*Electric scooters (e-scooters), electric bicycles (e-bikes), and any other unauthorized motor vehicles are not permitted on Camp Hill School District property (Hoover Elementary School, Eisenhower Elementary School, Camp Hill Middle/High School, District Office and College Park) or at district sponsored events (i.e. at Seibert Park). E-scooters, e-bikes and any other unauthorized motor vehicles may not be ridden, parked, charged, stored, or left on any District property. In the interest of student and staff safety, students are required to dismount their bicycles, non-motorized scooters, skateboards, and any other legal / approved personal transportation device upon entering District property. Students are expected to walk their approved transportation device to the designated bike racks, where bicycles and non-motorized scooters must be locked and secured. Transportation devices must be kept only in the designated storage area and may not be brought into any District building. Students should use crosswalks when crossing streets and obey all traffic signs.*

*Students using bicycles shall secure them at the designated bike racks. Students are strongly encouraged to register their bicycles with the Camp Hill Police Department and lock them each day. Bicycles should not be left or stored at District bike racks beyond the school day. Bicycles that are not registered with the Camp Hill Police Department and remain on District property for more than one week will be considered abandoned and turned over to the police department as abandoned or lost property.*

*Students who walk to and from school shall follow all laws and regulations intended to protect pedestrians and motorists. Please note that crossing the intersection of North 21st Street and Cumberland Boulevard (Camp Hill Bypass) as a pedestrian is both dangerous and a violation of the Pennsylvania Vehicle Code. Two pedestrian underpasses are provided for safely crossing Cumberland Boulevard. One underpass is accessible from the Appletree Road/Parkside Road neighborhood through Seibert Park. Recommended walking routes are included at the end of this handbook, and additional information is available on the District's Safety & Security webpage.*

**Student Violations:**

*1st offense violation of unauthorized use of a motorized vehicle: Level II infraction resulting in confiscation of unauthorized vehicle, communication home, and conference with student.*

*2nd offense violation of unauthorized use of a motorized vehicle: Level III infraction resulting in confiscation of unauthorized vehicle, phone call home, detention, and conference with student. Administration reserves the right to apply other consequences in accordance with Level III violations.*

*3rd offense violation of unauthorized use of a motorized vehicle: Level III infractions may result in collaboration with CHPD, confiscation of the device, loss of privileges, detentions, and parent communication. Administration reserves the right to apply other consequences in accordance with Level III violations.*

*Additional offenses would result in a Level IV violation.*
