Morningside Middle | October 1 | Issue #06

Important Date

Oct. 9- House Day & Half Day Dismissal @11:45

This Week in our Classrooms

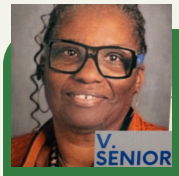

ELA

domonique_finey@charlestoncountyschools.gov

In ELA, students are reading "Woodsong" while exploring the difference between denotation and connotation and how word choice can influence meaning and tone. Students are also taking the lead by facilitating discussions, asking questions, and sharing their thinking with classmates. This student-led approach encourages confidence, collaboration, and deeper engagement with the text.

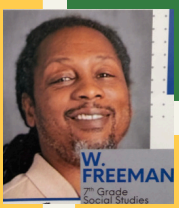

Mathematics

vanessa_senior@charlestoncountyschools.gov

This week in Math we will begin unit 3 Proportional Relationships and think about how we can determine proportionality between two varying quantities. We will use various models, tables, and equivalent ratios/proportions. Students will now be able to graph proportional relationships.

In Honors, they will discover interest versus simple interest. They will compare interest rates for various purchases, for example, cars, bank loans, and/or furniture loans.

Social Studies

William_freeman@charlestoncountyschools.gov

Students will be exploring the Six Essential Themes of Geography. These themes help geographers understand the world and the relationships between people and places. , students will also participate in class discussions, map activities, and collaborative assignments designed to help them apply these themes to real-world examples.

Hispanic Heritage Celebration

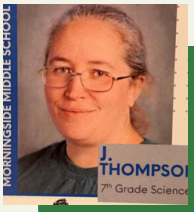

Wednesday Oct 14, 2026 @ 5-7PM

Join us for a multicultural/international celebration to commemorate the end of Hispanic Heritage Month. Food will be provided by local businesses, staff, and our own families. If you would like to share a favorite cultural dish of yours, please bring it on down to the school that day. There will be food, music, games, and fun activities for all to enjoy!

i-Ready

Ask your scholar did they complete their 4 ELA & 4 math lessons for the week!

Science

jennifer_thompson@charlestoncountyschools.gov

Students are finishing our unit on Chemical Reactions! We will be putting all the pieces together to understand the Conservation of Mass and Matter supported by our anchoring phenomena - what happens when we put a bath bomb in water?

In addition, students will review for and take the District Common Assessment which will asses their comprehansion of SCCCR Standards 7-PS1-1, 7-PS1-2, and 7-PS1-5.

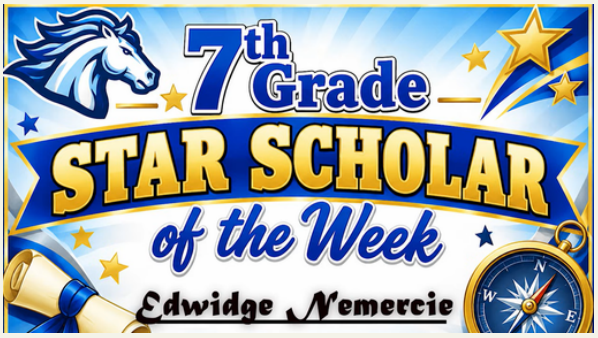

Remember: Students should be completing their GOW and IXL every week for science!

Please check PowerSchool weekly! The last day to turn anything in for Quarter 1 is Friday 10/9 by dismissal! Thank you so much!

This week's Student of the Week is being recognized for consistently going above and beyond! She exceeds expectations on i-Ready, & has a strong commitment to her learning. She actively participates in class, and puts forth excellent effort. She is also a great friend to her classmates and is always willing to support and encourage others. Her positive attitude, strong work ethic, and kindness make her a wonderful example for others.
