Weekly 7th Grade

Newsletter

Morningside Middle | October 8 | Issue #07

Important Date

Oct. 13- Q2 begins

Oct. 19- Report Cards Distributed this week

This Week in our Classrooms

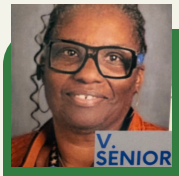

ELA

domonique_finey@charlestoncountyschools.gov

Next week, scholars will take their Unit 1 Test and complete another practice Text-Dependent Writing (TDW). To prepare, students should review the key concepts and skills covered throughout the unit, including connotation and denotation, plot, theme, objective summaries, point of view, figurative language, and research skills. Reviewing class notes, and StudySync lessons will help students feel confident and prepared. Encourage your child to take time to review and come ready to do their best!

Mathematics

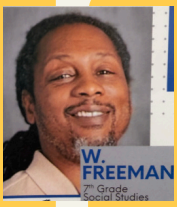

vanessa_senior@charlestoncountyschools.gov

General Math 7

We will continue our work in Unit 3: Proportional Relationships. Students will explore how to determine proportionality between two varying quantities using tables, models, and equivalent ratios and proportions. Students should be able to graph proportional relationships and understand that the graph is a straight line that passes through the origin.

Honors Math 7/8

Students will explore the difference between simple interest and compound interest and prepare for the Unit 3 assessment. They will also work on mini-projects to apply their understanding of these concepts to real-world situations.

Social Studies

William_freeman@charlestoncountyschools.gov

This upcoming week in 7th grade World Geography, students will begin exploring the world's regions and continents. We will identify the seven continents, examine where they are located on a world map, and begin learning about the unique characteristics that make each region special.

Hispanic Heritage Celebration

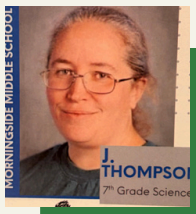

Wednesday Oct 14, 2026 @ 5-7PM

Join us for a multicultural/international celebration to commemorate the end of Hispanic Heritage Month. Food will be provided by local businesses, staff, and our own families. If you would like to share a favorite cultural dish of yours, please bring it on down to the school that day. There will be food, music, games, and fun activities for all to enjoy!

i-Ready

Ask your scholar did they complete their 4 ELA & 4 math lessons for the week!

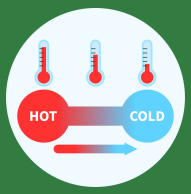

Science

jennifer_thompson@charlestoncountyschools.gov

We are beginning Quarter 2 with a new unit! We will be exploring physics and different types of energy!

First we'll explore how chemical reactions can absorb or emit thermal energy (heat) and how heat flows.

Then we will be working on design a way to construct, test, and modify a device that either releases or absorbs thermal energy by chemical processes and recording data from the test trials.

Week 10 Science IXL code: 5AE

Week 10 GOW (Graph of the Week) in formative

Kevin Cardova Perez

Kevin is being recognized for his dedication, hard work, and positive attitude toward learning. He consistently puts forth his best effort and shows a genuine desire to learn and improve. He actively participates in class, answers questions, and is not afraid to share his ideas. His bubbly personality and positive attitude bring great energy to the classroom. He is a wonderful example of a student who works hard, stays engaged, and takes pride in their learning.
