Note:
The statistics provided for current boundaries are based upon students attending the school. The statistics provided for the scenarios are based upon students residing within the attendance zone on 9/30/2026. The demographic statistics are based upon the 10/2/2026 enrollment snapshot. Current capacity figures at Drew assume 650 seats.

Note:
At Dixon-Smith, the baseline capacity under current boundaries is 1,100 seats for Fall 2028, 2030, and 2032. Under initial boundary scenarios, however, Dixon-Smith's capacity is reduced to 869 seats to account for the HEDS program relocation, which raises the school's overall capacity utilization.
