LANDO

CODING & GAME DESIGN

BEST IN STEM .ORG

Retro Remix

ON CAMPUS AT HOLLOW HILLS

Kids code their own versions of games they love this session—a gingerbread chase, arcade hoops, a treasure dig. Every game starts partly built, and kids code the rest, with teachers guiding just-right challenges on Lando's Scratch-based iPads. Every class ends with friends playtesting—and an email home with a link, so your family can play what your child made.

Thursdays, 1:45PM - 3:15PM

Starting September 3 for Grade 4 to 5

$25 per 90 min class

Pay Monthly. Unenroll Any Month
