Rockwall ISD Book Vetting Process

In Rockwall ISD, we are committed to building a rich, diverse, and age-appropriate library collection for our students. Every book on our approved list goes through a careful, professional vetting process, conducted by a certified librarian, to ensure quality and alignment with our educational goals.

Step 1: Request & Discovery

The process starts with new title suggestions. Title requests are actively gathered from:

- Students
- Teachers and Staff

Our certified school librarians also proactively identify new and well-regarded titles that align with curriculum standards and student interests.

Step 2: Initial Screening

Librarians conduct a preliminary review of each suggested title. This quick check verifies:

- Age-appropriateness: Is it intended for the correct grade level?
- Community values: Is the content aligned with community values?

Step 3: Professional Vetting

This is the most in-depth step. Our library staff does not just read the cover; they perform professional research, which includes:

- Reading all professional reviews from trusted, unbiased sources.
- Assessing literary quality, accuracy, and overall value.
- Evaluating how the material supports the district's curriculum and educational standards.

Step 4: Additional Review

If there is anything in the previous steps that causes questions or contradictions, the librarian will delve deeper into the evaluation:

- A peer review is conducted by a committee of librarians.
- Librarians utilize additional non-professional reviews to gather more information.

Step 5: Full Read-Through

In identified cases, the librarian will read the book in full before it is added to the recommended list. This typically happens if:

- After thorough review, there are still discrepancies or questions.
- The book is a graphic novel.
- The target audience indicated by the publisher is for older readers.
