Assessment Data Presentation (Attachment 1)

Dr. Chiappetta and Superintendent Smith presented the Region 15 Data Assessment. (Attachment 1) Board members expressed optimism about the district's direction and the work taking place across the departments. Board members noted that the recent presentations from Dr. Chiappetta, School Principals, Dr. Sciarretto, and Instructional Coaches have helped demonstrate how various initiatives connect, including: student assessment results, school improvement plans, instructional strategies, department specific goals and districtwide improvement. Board members expressed confidence that the district's continued focus on these areas could lead to meaningful improvement. Board members thanked the administrators and staff for their efforts to support students and expressed anticipation about seeing the results of their work.

Policy & Curriculum

Ms. Dwyer reported that the committee met on November 9th. Dr. Sciarretto gave a presentation on the Special Education Program Review, which provided a comprehensive overview of the district's special education programs and services. The next meeting is scheduled for Monday, December 14, 2026.

PTO Advisory

Ms. Attick reported the committee met on November 5th. Topics of discussion included:

- Ongoing concerns about spam emails
- Improving district communications
- Appropriate use of AI in classrooms, emphasizing that AI should be used to enhance learning, not replace teaching or student thinking
- Expectations for board discussions including test scoring, student data and the school calendar
- Updates on school construction projects

The next PTO Advisory meeting is January 7, 2027.

GES/PES Building Committee

Mr. Suriani reported that the Building Committee members and the GES and PES Principals were invited to tour the Cheshire school project on November 19th to learn from their experience and identify lesson for the district's project. Ms. Manzo will find out if Board Members can attend the tours.

Mr. Suriani reported the committee interviewed firms that submitted proposals for the Owner's Representative services.

The architect's contract is nearing completion. The architect's contract will be discussed in executive session and will require a Board vote.

K-8 ELA Resources

K-8 Literacy resources include:

- Phonics/Word Study,
- Reading,
- Writing.

As new versions of resources become available, we have updated the resources and provide professional development.

Region 15 has been fortunate to have been able to participate in the development of some of the updated resources, being able to provide feedback and suggestions.

Region 15's literacy approach falls within the Right to Read legislation and no longer needs a "waiver."

A deeper discussion of elementary and middle school literacy resources have been shared at Policy & Curriculum Committee Meetings last spring and this fall.

Why Use the District & School Performance Index?

- The District Performance Index (DPI) and School Performance Index (SPI) are how the state and federal government evaluate, measure, and monitor districts and schools
  - Federally mandated categories include academic achievement, academic growth, graduation rates, progress for ML students, and at least 1 measure such as chronic absenteeism or postsecondary readiness
- Looks beyond a single end of the year test which can be a "lagging indicator" and includes growth over time, chronic absenteeism, graduation rates, etc.
- Ensures that progress for ***every*** student counts

Gap Indicators

Indicator	Non-High Needs Rate	High Needs Rate	Size of Gap	State Gap Mean +1 Stdev	Is Gap an Outlier?
ELA Performance Index Gap	75.0	59.3	15.7	16.6	N
Math Performance Index Gap	75.0	56.9	18.1	17.8	Y
Science Performance Index Gap	75.0	58.6	16.4	18.6	N
Graduation Rate Gap (2023 Cohort)	94.0	92.1	1.9	10.7	N

If the Non-High Needs Rate exceeds the ultimate target (75 for Performance Index and 94% for Graduation Rate), the ultimate target is used for gap calculations.
If the size of the gap exceeds the state mean gap plus one standard deviation, the gap is an outlier.

School Category Assignment Per State Law

- Assignment to categories 1-3 based on Accountability Index. Criterion-referenced cut scores rather than relative performance (i.e. quartiles) implemented for the first time in 2017-18 reporting. Criterion-referenced cut scores provide consistent targets for schools and districts.
- Schools eligible for Category 1 or Category 2 status with an outlier achievement gap, or graduation rate gap, or a participation rate less than 95% will be dropped one category.
- Assignment to categories 1-3 occurs annually.
- All schools identified for state support (Turnaround/Focus) are classified in Category 4 or 5.

- Smarter Balanced/School Day SAT/NGSS Assessments
  - Give information at the grade level, school levels for those content areas
  - Are assessments taken one point in time
  - Are used to develop school improvement plans (as described at the last board meeting)
  - Provide more granular data for administrators, families
- DPI/SPI
  - Used by the state and federal government as a way to evaluate and monitor schools and school systems
  - Gives a broader picture of a school and school system
  - Ensures that all students "count"

District Improvement Measures

- Summaries of strategies from each building's school improvement plans were shared by administrators at the last BOE Meeting
  - Data work
    - specifically looking at each and every student and what they need to learn grade level standards
      - Region 15's greatest potential for DPI/SPI improvement lies in Indicator 2 which is Academic Growth
    - While both achievement and growth are important for all students, on the Performance Index, growth is prioritized
  - Continued work on Tier 1 instruction
    - ensuring that work is not over-scaffolded
  - Ensuring students have exposure to the type of rigorous questions that they will be encountering on state and national assessments.
    - IAB/FIAB work and high school work on SAT-type questions
      - Scheduled, intentional, using the data from these
  - Strengthening internal monitoring of data that is sent to the state in order to ensure accuracy, including participation rate (at least 95% per the state).
  - Calibration of grade level standards
    - Is everyone speaking the same language and does everyone have the same, consistent expectations?

Based on the Data in This Presentation, What is the Evidence That What is Being Done is Working?

- Student improvement year to year and across years.
- The number of AP students has increased over time with the percent of students receiving a 3+ increasing.
- Each of the elementary schools over the course of the last few years has been listed as a "School of Distinction" by the state, with GES being recognized this year and among the highest achieving elementary schools in the state.
- Reaching "pre-covid" levels of SPI are within reach, with MES exceeding pre-covid SPI this past spring.
