

Superintendent's Report

Syosset Central School District

November 2026

Propel NY –

- High-voltage Underground Energy Transmission Cables
- In Syosset:
  - Runs in front of Robbins Lane elementary school
  - Cuts across South Woods Road near the high school
  - Will open Cold Spring Rd. by the train station

Propel NY Concerns

- **Six Nassau County school districts hosted a press conference highlighting concerns:**
- 30-year-old electrical safety standards …
  - PSC silent on whether those standards are still regarded as protective of human health
  - Other jurisdictions have adopted stricter standards
- Construction will create safety risks
  - Traffic congestion will delay 911 response to emergencies
  - Noise, dust, diesel exhaust, and fumes during construction
  - Reduced lane capacity during arrival & dismissal operations
- Lacks specifics about cable location and construction schedule
  - Applicant's own traffic studies show daytime construction will be **very** disruptive

Press Conference: Hicksville, Garden City, Manhasset, North Shore, Roslyn, Syosset
