II. Strategic Technology Planning

1. What is the overall district mission?

We are committed to providing our students high--quality, 21st century learning experiences within and beyond our classrooms so that our graduates are prepared to excel in college, career, and life.

2. What is the vision statement that guides instructional technology use in the district?

In order to benefit most from educational technology, students must not only have ready access to the necessary tools for learning but also must have access to teachers who use these tools effectively to engage students in authentic, meaningful learning tasks. Students will use instructional technology to engage in personalized learning activities that promote high levels of interactivity and emphasize discovery and exploration; to engage with data, complex content, and multiple forms of representation; and to receive significant levels of teacher support, real-time feedback, and opportunities for social interactions among students. Teachers will receive the necessary resources and support to design and deliver lessons that engage students in transformational learning experiences that promote personalized learning and culturally-responsive instruction.

3. At the start of the 2026-27 school year, will the district provide a dedicated mobile device for every student in all grades?

Yes

For help with completing the plan, please visit ITP Resources on our website, contact your district's RIC, or email edtech@nysed.gov.

V. NYSED Initiatives Alignment

1. How will the district's use of instructional technology support a comprehensive and sustained effort to improve student performance and academic standards, while also addressing the need to provide equitable learning opportunities “everywhere, all the time” (National Technology Plan)?

The district’s use of instructional technology supports a comprehensive and sustained effort to improve student performance and academic standards by integrating digital tools into curriculum, instruction, assessment, and professional learning. Technology is used strategically to enhance teaching practices, personalize learning, and support data-informed instruction aligned to New York State Learning Standards.

Instructional technology enables educators to monitor student progress, provide timely feedback, and differentiate instruction to meet the needs of all learners, including students with disabilities, multilingual learners, and students requiring academic intervention or enrichment. Digital instructional platforms support consistent access to high-quality learning materials and promote student engagement and academic growth.

To ensure equitable learning opportunities “everywhere, all the time,” the district prioritizes access to devices, digital resources, and cloud-based learning platforms that extend learning beyond the classroom. These tools support continuity of learning and flexible instructional models regardless of time or location.

The district also invests in ongoing professional learning to ensure educators effectively use instructional technology to design inclusive, engaging, and equitable learning experiences. Through intentional planning and alignment, instructional technology advances academic outcomes while ensuring equitable access for all students.

2. **At the start of the 2026-27 school year, will the district offer full-time virtual instruction to any students? (*Select all that apply)***

- ☐ Yes. Our district operates a full-time virtual instruction program.
- ☑ Yes. One or more of our students will attend a program operated by a BOCES or another public school district.
- ☐ None of our students will participate in a full-time virtual instruction program.
- ☐ Other

3. If the district files or has filed a Smart Schools Investment Plan (SSIP) to apply for Smart Schools Bond Act funds, all responses in this survey align with the district’s response to any related question(s) in the SSIP.

The district does not have an active SSIP.

For help with completing the plan, please visit ITP Resources on our website, contact your district's RIC, or email edtech@nysed.gov.
