- Principals - Dr. Ciccone & Dr. Kotcho - NJSLA results and School Goals
- District Updates, News, and Events

LEARNING BEYOND THE CLASSROOM
Our eighth-grade students recently participated in a field trip to New York City that brought together history, global awareness, and time with classmates. Students visited the 9/11 Memorial, where they had an opportunity to reflect on an important moment in our nation's history, and the United Nations Headquarters, where they learned about international cooperation and global affairs. A visit to Top of the Rock provided a

different perspective on the city and its landmarks.

The trip concluded with dinner and a performance at Medieval Times. Thank you to the staff members who planned and supervised this experience. These opportunities help students connect classroom learning with the broader world while building shared memories during their final year at MTMS.

RECOGNIZING STUDENT CHARACTER

MTMS recently recognized its first STAR Students of the school year. Teachers nominated students who demonstrated outstanding character, contributed positively to their classrooms, and served as role models for their peers.

Each selected student received a Golden Ticket and was recognized in front of their grade level. The presentations also provided an opportunity to reinforce schoolwide expectations for respect, responsibility, and rising to challenges. Congratulations to our students, and thank you to our teachers for recognizing the everyday choices that help make MTMS a welcoming school community.

CLASSROOM INSTRUCTION

During recent classroom visits, I observed examples of effective small-group instruction, teacher modeling, and collaboration between general education and special education staff. Lessons included early literacy, reading comprehension, sentence writing, and multistep mathematical problem solving.

Across these visits, strong relationships and clear communication helped students participate and engage with their learning. These observations also inform our ongoing conversations about breaking directions into manageable steps, encouraging students to explain their thinking, and monitoring learning throughout the classroom.

CLASSROOM TECHNOLOGY AND ARTIFICIAL INTELLIGENCE

We have developed a draft statement on the use of classroom technology to help explain our approach to digital tools, screen use, and artificial intelligence. The document emphasizes the educational purpose of technology and the importance of considering its contribution to student learning.

The Policy and Curriculum Committees are scheduled to review the draft during November. Following that review and any necessary revisions, our goal is to publish it on the district website, share it with the community, and include it as an appendix to Policy 5516. This will give families and staff a clearer explanation of the principles guiding our decisions.

COMMUNITY CONNECTIONS

Our We Are Mendham video initiative provides an opportunity to connect students and families with the people, organizations, and history of our community. Recent outreach has focused on potential participation by Diana Orban Brown, the Historical Commission, and the First Aid Squad.

Through these conversations, we hope to share local experiences, introduce students to community service, and preserve stories that help explain what makes Mendham special.

STAFFING UPDATE
We are currently working to fill an active World Language vacancy. Filling this position remains a staffing priority.

DATE CHANGE - PREVIOUSLY APPROVED MIDDLE SCHOOL TRIP
Middle School Band, Choir, and Orchestra trip to the Presbyterian Church in Morristown, approved by the Board for 11/12/26, has been changed to 11/19/26.

MIDDLE SCHOOL ATHLETICS
We have an exciting week ahead for our middle school athletes. Boys soccer will play at home on Wednesday after school. Girls soccer may also have the opportunity to play in a county final at home on Thursday, pending the outcome of their next game.
Our boys and girls cross country teams will compete on Thursday at Central Park of Morris County at Greystone Park. We wish all of our student-athletes and coaches the best and thank them for representing Mendham Township with pride.

VII. Board President's Report

I'd like to take a minute to talk about where we are as a district as we head into budget season.

Despite a challenging financial environment, our district continues to make progress. We're strengthening instructional programs, expanding opportunities for students, embracing innovation, and focusing on student wellness and belonging. At the same time – as we've talked about many times -- we are facing real financial challenges of our own. Many school districts across New Jersey are experiencing increasing financial pressures, driven in large part by rising costs and factors outside of their control.

As we head into budget season in the coming months, I think it's a good opportunity for us as a Board to continue learning, ask questions, and take advantage of the training opportunities available to us. The budget process is complex, and the more we understand the challenges and the options available to us, the better equipped we'll be to make informed decisions.

I also want to acknowledge the work of our teachers, staff, and administration in continuing to support our students and move our district forward. As a Board, we

share in that responsibility, and I appreciate the time and thought everyone brings to this work.

We all want to provide our students with the best possible educational experience while being responsible stewards of taxpayer dollars. I look forward to working together as we navigate the budget process in the months ahead.

XI. Verbal Communications from the Public

Mrs. Marnie Briskin - 18 Glenbrook Drive - after the latest tragedy in Oregon, I am curious as to why all of the surrounding school districts have armed security guards in the schools, and we do not? I realize that this is a terrible thing we have to think about however it must be a priority and it seems that we are not as protected as our neighbors.

Dr. Contantino said that he would sit down to discuss this with her and that he would connect with her next week to discuss this.

Ms. Kira Mandel - Good Evening Members of the Board - My name is Kira Mandel, and I am a junior at West Morris Mendham High. I am here today as a Mendham Township Alum to express my concern regarding the school district's policy on Artificial Intelligence. As it stands, AI is detrimental to long-term information retention. This is especially harmful in important and formative years like those of middle and elementary school. When AI is used, even in minuscule amounts, for seemingly trivial tasks, the brain not only becomes more reliant on the technology but less cognizant of the work it's doing. A study from just a week ago at the University of Santa Barbara found that those who use a Chabot for even 10 minutes report difficulties focusing and proceeding onto harder tasks. By removing seemingly useless and unimportant steps, students never truly learn to develop that skill on their own. Learning at the middle and elementary level is focused on foundational work. These students are not writing 10-page research papers or solving complicated calculus problems; their work does not necessitate the use of AI. For instance, I spoke to a collection of middle school students who divulged that their teachers allowed them to use AI to brainstorm for an essay. While this may seem insignificant, as someone who is in the midst of AP and IB classes, the simple ability of being able to write a full essay from start to finish without the use of technology is not only necessary, but expected once they enter higher-level grades. Researchers at MIT name this mental offloading "cognitive surrender". They reported that getting answers from a chatbot created the 'illusion of learning ' for students who reached for AI at the first hint of struggle. This data was based on a study of 26,000 students in which the use of AI was linked to an 18% increase in homework scores, but a 20% decrease in the scores on subsequent tests and exams, reflecting the lack of retention these students had of the information they 'studied'. AI is already being pushed in today's society; the implementation of such technology in school not only normalizes reliance on AI but endorses its use. The OECD found that students who refrained from using AI had not

only higher test scores, but specifically improved reading skills. Now, the district's current policy, policy number 2365, permits AI use in brainstorming, feedback, learning, creativity, research assistance, translation, and revision, adding that artificial intelligence may extend students' thinking. The district's model is based on the FiveEd Tech Quality Indicators. One of these indicators is the need for policy to be evidence-based. For these reasons, I respectfully request that the district's AI policy be re-evaluated to address more recently published evidence, be specified as to what is and isn't permitted, and be restricted to remove students' ability to use AI in essay preparation and writing. Thank you for your time and consideration.

XII. Adjourn to Closed EXECUTIVE SESSION

WHEREAS, Chapter 231 P.L. 1975, also known as the Sunshine Law, authorizes a public body to meet in executive session under certain limited circumstances; and

WHEREAS, said law requires the board to adopt a resolution at a public meeting before it can meet in such an executive or private session.
