Leveling Up

DJ and his homegirl, Alexis, traveled to Atlanta to see T.I. and Fantasia in concert. They had booked rooms at the Westin Hotel in downtown Atlanta. Whenever famous entertainers came to Atlanta, the Westin was one of their favorite places to stay. DJ was amazed by how tall the hotel was!

After checking in at the front desk, DJ and Alexis headed to the elevator to go to their rooms. Their rooms were on the same floor. When they stepped onto the elevator, Alexis noticed that there was a Floor 0. Since they were standing on the first floor, which was the lobby, DJ explained that Floor 0 was the parking garage.

DJ and Alexis traveled up 8 floors before DJ realized he had left his wallet on the counter downstairs. They stopped the elevator, and three passengers got on. The elevator traveled up 2 more floors, where one passenger got off. Next, the elevator traveled up another 10 floors, and the remaining two passengers got off.

Suddenly, DJ was shocked to see Chris Stapleton step onto the elevator! The hotel had 40 floors, and Chris Stapleton mentioned that Rod Wave was just 3 floors above him. The elevator traveled up 5 more floors so Mr. Stapleton could join Jelly Roll for a party.

Finally, the elevator began traveling down. After going down 6 floors, it stopped. Taylor Swift and four other people stepped on. Alexis excitedly asked Taylor for her autograph. Taylor then asked DJ and Alexis if they minded going up 11 floors to the Kansas City Chiefs' floor. DJ didn't mind because he had always wanted to meet Patrick Mahomes!

Taylor Swift and her friends got off on the Chiefs' floor, but security would not allow DJ and Alexis to leave the elevator. So, they continued their journey down. After traveling down 13 more floors, the elevator finally stopped. DJ and Alexis got off and headed to their individual rooms. DJ then called the front desk and asked them to bring his wallet.

Question: On which floor were DJ and Alexis's rooms located?
