EBBD - Evacuations and Emergencies

(See EBBF and JBH)

If an emergency interferes with the normal conduct of school affairs, students may be dismissed from school only by the superintendent or superintendent's designee. A plan for emergency dismissal of students during the school day shall be developed by the superintendent and approved by the board. A copy shall be filed with the clerk, and procedures for dismissal shall be given to parents and students at the beginning of each school year.

In an emergency when the safety of students and/or staff is better served by remaining at school, students will not be released, nor will school be dismissed early.

During an emergency period when there is insufficient warning time, the district will keep all students under school jurisdiction and supervision. The staff shall remain on duty to supervise students during this time.

School-Closing Announcements

When the superintendent believes the safety of students is threatened by severe weather, health or safety concerns, or other circumstances, parents and students shall be notified of school closings or cancellations by announcements made over radio/TV station(s), social media, district website and the designated school system.

If there is a bomb threat or similar emergency, the principal shall see that students are escorted to a safe place. The principal shall notify law enforcement agencies of the threat and request a thorough inspection of the buildings and grounds. Other contingencies as noted in the crisis plan shall be followed. If it is determined that no danger exists to the students' safety, and, if there is time remaining in the school day, school shall be resumed.

Planning for Emergencies

Each building principal shall develop appropriate emergency procedures which shall be included in the district's crisis plans. As appropriate, portions of the crisis plan developed shall be held in strict confidence by staff members having direct responsibility for implementing the plan.

Approved: 5/26

KASB Recommendation–7/96; 4/07; 12/20; 12/23

EBBE - Emergency Drills

Building principals shall be responsible for scheduling and conducting emergency and safety drills as required by law and for ensuring students are instructed in the procedures to follow during the drills and in an actual emergency.

Each building principal shall develop a written plan for specific emergency drills required by law. The plan shall include specific arrangements for the evacuation of mobility impaired and other individuals who may need assistance from staff members to safely exit the building. Although plans for evacuation are essential, the state fire marshal may grant exemptions to the number or manner of drills required by law with regard to students receiving special education or related services, upon request.

Each principal shall conduct briefings with the staff concerning the emergency plan.

Each teacher shall explain relevant portions of the plan to students under their jurisdiction prior to a date established by the principal. Within one week thereafter, the building principal shall conduct a surprise drill. Other drills shall be held at times determined by the building principal.

The four fire drills and three crisis drills required by law may be scheduled at any time during the school year. "Crisis drills" includes intruder response drills, lockdown drills, and active shooter drills but does not include active shooter simulations. The two tornado drills required shall be conducted in September and March. All these drills must be conducted by each school during school hours and cannot be made part of regular dismissal at the close of the school day.

Each emergency and safety drill plan shall be reviewed by the superintendent and filed with the clerk.

Active Shooter Drills

For the purposes of this policy, terms have the following meanings.

“Active shooter drill” means an emergency preparedness drill designed to inform and instruct students, teachers, school personnel and other school staff on how to respond in the event that an armed intruder is on the school campus or an armed assailant is in the immediate vicinity of the school. "Active shooter drill" includes:

- For grades kindergarten through five, instruction through tabletop exercises and identification of appropriate places for students to locate during an emergency; and
- for grades six through 12, the information described earlier in this definition and the practice of active shooter drills.

“Active shooter drill” does not include any sensory components, activities or elements that mimic a real-life shooting. "Active shooter drill" is not an active shooter simulation.

“Active shooter simulation” means an emergency exercise, including full-scale or functional exercises, designed to inform and instruct adult teachers, school personnel and other school staff on how to respond in the event of an armed intruder on the school campus or an armed assailant in the immediate vicinity of the school. “Active shooter simulation” includes activities or elements mimicking a real-life shooting, including, but not limited to, simulation of tactical response by law enforcement. "Active shooter simulation" does not include active shooter drills.

“School” means any elementary or secondary public school maintained and operated by a school district and any accredited nonpublic school that provides any of the grades kindergarten through 12.

“Tabletop exercise” means an exercise designed to help students better understand their individual or group roles and responsibilities. “Tabletop exercises” may include constructive problem-solving as it relates to an armed intruder on the school property or an armed assailant in the immediate vicinity of the school and may incorporate age-appropriate written or video scenarios for students to follow.

The district shall conduct active shooter drills that are consistent with the guidelines published by the Kansas State Department of Education.

Once per year, the board shall review the efficacy and effect of active shooter drills and any impacts of such drills on the safety and mental health of students, teachers, and other school personnel and staff.

The principal in any district school where an active shooter drill, active shooter simulation, or tactical training exercise is to take place shall ensure a school employee notifies each parent or person acting as parent at least 24 hours prior to an active shooter drill, active shooter simulation, or tactical training exercise. The notice shall provide that the parent or person acting as parent may opt their student out of participation in such drill or simulation. Any student who is opted out of an active shooter drill or simulation shall have the opportunity to participate in alternative safety education and shall not receive any negative or punitive treatment for not participating in such drill or simulation. If notice cannot be provided at least 24 hours prior to an active shooter drill or simulation, notice shall be provided within 24 hours of the conclusion of the active shooter drill or simulation.

Nothing in this section shall be deemed to supersede or limit the ability of a parent or person acting as parent to opt their student out of participation in an active shooter drill or simulation; or require any school to conduct active shooter drills in a manner that conflicts with the guidelines published by the Kansas State Department of Education.

Except as otherwise provided in this policy regarding tactical training exercises with law enforcement, no school shall conduct, sponsor, or permit any active shooter simulation on school property where students in grades kindergarten through eight regularly attend school.

The board of education or governing body of a school may conduct, sponsor, or permit active shooter simulations on school property, if only students in grades 9 through 12 regularly attend school on such school property.

Nothing in this section shall prohibit law enforcement agencies and adult school personnel from conducting or participating in tactical training exercises on school property if:

- The exercises do not occur during regular school hours or any time when students are present or expected to be present;
- no student participates in such exercises; and
- the board has provided prior written authorization for the use of school property for such exercises.

EE - Food Services Management

(See EBBD)

A supervisor may be hired by the board to oversee the district's food service program.

Sanitation Inspections

The building principal shall inspect each lunchroom to ensure that proper sanitation procedures are being followed.

Records

The supervisor shall be responsible for keeping food service records required by state and federal laws and regulations.

The supervisor shall be under the direct supervision of the superintendent and shall have control over all aspects of the district's food service programs subject to board policy, rules and state and federal regulations.

Meal Prices

Meal prices shall be determined by the board.

Free or Reduced Price Meals

Parents or guardians of students attending schools participating in federal school meal programs must be informed of the availability of reimbursable school meals and provided with information about eligibility and the process for applying for free or reduced price meals on or before the start of school each year. Access to this policy will be provided to parents or guardians when they receive information regarding eligibility and applying for free or reduced price meals.

Unpaid Meal Charges

The district's meal charging requirements are as follows.

A charge account for students paying full or reduced price for meals may be established with the district. Students may charge no more than $10 in the elementary grades, $10 in the middle or junior high grades, and $10 in the high school grades for the purchase of meals to this account without triggering the district's delinquent debt proceedings as outlined in this policy and board policy DP. Charging of a la carte or extra items to this account will not be permitted.

When the charge levels identified in this policy have been met, a student's meal account becomes delinquent. The student will be allowed to purchase a meal if the student pays for the meal when it is received. Students who have delinquent accounts and cannot pay out of pocket for a meal will be provided a regular, reimbursable meal from the cafeteria menu, which shall be charged to the student's account while the district proceeds with attempts to resolve the delinquent debt with the student's parent

or guardian. If attempts to receive payment for charged meals do not result in full payment of the debt in the timelines provided herein, debt collection proceedings will begin in accordance with board policy DP.

At least one verbal and one written warning shall be provided to a student and the student's parent or guardian prior to reaching the delinquent debt threshold outlined herein. Access to this policy will be provided to the student's parent or guardian with the written warning. If payment of the negative balance is not received within 5 working days of the delinquent debt threshold being attained, the debt will be turned over to the superintendent or superintendent's designee for collection in accordance with board policy DP. If the debt is not paid within 10 days of mailing the final notice of the negative account balance under policy DP, it shall be considered bad debt for the purposes of federal law concerning unpaid meal charges. Bad debt must be written off as an operating loss and restored using non-Federal funds, even if it has been turned over for collection through other legal means.
