PREFACE

The following policies of Unified School District (USD) 445 are the result of a combined effort of the staff at the Kansas Association of School Boards, the Board of Education and district staff.

KASB has written the policy model and integrated the appropriate policies and procedures being used. Upon the completion of the first and second draft, KASB staff consulted with the board and selected district staff members to arrive at the final draft. This final draft was then adopted by the board.

Understanding the Policy System

Policies: principles adopted by the school board to chart a course of action. They tell WHAT is wanted and may include also WHY and HOW MUCH. They should be broad enough to provide the administration with flexibility and guidance in handling the day-to-day issues which arise. They also should be narrow enough to give the administration clear guidance.

This philosophy was incorporated into the thinking that produced the model and guided the board and the district's staff in developing the final, adopted policies.

This document of policies contains thirteen sections. These sections are:

A -- SCHOOL DISTRICT ORGANIZATION
B -- SCHOOL BOARD OPERATIONS
C -- GENERAL SCHOOL ADMINISTRATION
D -- FISCAL MANAGEMENT
E -- BUSINESS MANAGEMENT
F -- FACILITY EXPANSION PROGRAM
G -- PERSONNEL (Licensed and Non-Licensed)
H -- NEGOTIATIONS
I -- INSTRUCTIONAL PROGRAM
J -- STUDENTS
K -- GENERAL PUBLIC RELATIONS
L -- INTERORGANIZATIONAL RELATIONS
M -- RELATIONS WITH OTHER EDUCATION AGENCIES

It may not be reproduced, either in whole or in part, in any form whatsoever, to be given, sold or transmitted to any person or entity including but not limited to another school district, organization, company or corporation without written permission from KASB.

The policy system's ultimate success depends on using these policies daily to guide the board, administrators and other staff as a management tool to facilitate school board operations and actions.

The Index

The index is designed to help the user find the subject described in the appropriate policy.

When Using This Manual

Proper use of this manual includes, looking up the subject matter in the index and proceeding to the policy section first. Second, check the table of contents which is found in the front of each policy section. Determine if the desired subject is cross-referenced to any other policy. Proceed to the alpha code in the appropriate section and read the policy. Once this is done, cross-references should also be read.

State Law and Negotiated Contracts

Policies do not contain any statutory language or citations, unless necessary or negotiated contract language. They exist in separate documents which should be consulted as needed. If there is doubt about the subject being considered, guidance should be sought from the superintendent or another administrative staff member.

Definitions

1. When the masculine pronoun is used throughout these policies, it is intended to refer to both feminine and masculine antecedents.

2. Wherever the word "superintendent" or "principal" occurs, the words "or designated representative" are assumed to be included.

Public Records **CN**

(See BE, CNA, ECA, HAI, IDAE, II, JGGA, and JR et seq.)

The board designates {the superintendent/other title} as its Freedom of Information Officer. The Freedom of Information Officer shall have the authority to establish and maintain a system of records in accordance with the Kansas Open Records Act and other applicable laws. The board further assigns {the clerk/or____} to handle requests for records and to serve as the custodian of the records. The custodian shall prominently display and distribute or otherwise make available to the public a brochure concerning record access in the form prescribed by the local Freedom of Information Officer.

Types of Records

A public record means any recorded information, regardless of form or characteristics, which is made, maintained, kept by, or in the possession of the district, including those exhibited at public board meetings.

Central Office Records

Records maintained by the superintendent shall include, but may not be limited to, the following: financial, personnel, and property (both real and personal) owned by the district.

Building Records

Records maintained by the building principals shall include, but may not be limited to, the following: activity funds, student records, and personnel records. (See JR et seq.)

Public Access

All records, except those subject to exception by the Kansas Open Records Act, shall be open to inspection by the general public during regular office hours of any school or the district office. The superintendent will establish procedures for making records available on normal business days when district offices are closed. The district may charge and require advance payment of a fee for providing access to or furnishing copies of public records.

Requests for access to open records shall be made in writing to an official custodian of district records. The official custodian shall examine each request to determine whether the record requested is an open record or is subject to an exception of the Kansas Open Records Act that would allow the record to remain closed. The custodian may also refuse to provide access to a public record or to permit inspection if a request places an unreasonable burden in producing public records or if the custodian has reason to believe that repeated requests are intended to disrupt other essential functions of the district. The custodian shall either grant or deny each request.

If the custodian does not grant the request, the person requesting the record shall receive a written explanation of the reason for the denial within three days of the request, if an explanation is requested. If the requester disagrees with the explanation, the freedom of information officer shall settle the dispute.

Each request for access to a public record shall be acted upon as soon as possible, but not later than the end of the third business day following the date that the request is received. If the request is not acted on immediately, the custodian shall inform the requester, within the three-day window, when and where the open record will be made available.

Each custodian shall file all requests and their dispositions in the appropriate office and make reports as requested by the superintendent or the board.

Copies of Records

Copies of open records shall be available upon written request, unless otherwise specified in Kansas or federal law. Requestors may only make abstracts or obtain copies of public records to which they have access under the Kansas Open Records Act. The district shall not be required to provide copies of radio or recording tapes or discs, video tapes, films, pictures, slides, graphics, illustrations, or similar audio or visual items or devices, unless such items or devices were shown or played during open session of a district board meeting. Similarly, the district shall not be required to provide such items or devices which are copyrighted by a person other than the board. Furthermore, nothing in the Kansas Open Records Act requires the district to electronically make copies available by allowing a requestor to obtain copies by inserting, connecting, or otherwise attaching an electronic device provided by the requestor to the computer or other electronic device of the district.

Advance payment of the expense of providing access to or furnishing copies of open records shall be borne by the requestor. Under no circumstances shall the documents be allowed out of their usual building location without approval of the official custodian.

The board may prescribe reasonable fees for providing access to or furnishing copies of public records, subject to the following:

- In the case of fees for copies of records, the fees shall not exceed the actual cost of furnishing the requested records, including the cost of staff time required to make the information available. Actual costs may include the cost to review and redact the requested records but shall not include incidental costs incurred by the district that are not attributable to furnishing the requested records.
- In the case of fees for providing access to records maintained on computer facilities, the fees shall include only the cost of any computer services, including staff time required.

- If the district incurs costs for staff time to provide access to or furnish copies of public records, the district shall use in good faith the lowest-cost category of staff reasonably necessary to provide access to or furnish copies of public records. Charges for staff time shall be based on the employee's salary or hourly wage but shall not include the costs of employee benefits.
- Upon request, the district shall provide to the person requesting access to or copies of public records an itemized statement of costs incurred by the district and charged to such requester. Such itemized statement shall include, but not be limited to, the hourly rates charged for each employee involved in making the requested records available and an itemized list of any other fees charged to provide access to or furnish copies of the requested records.
- When the staff time needed to respond to a records request will exceed five hours or the estimated actual cost for staff time needed to fill the request exceeds $200, the district shall make reasonable efforts to contact the requester and engage in interactive communication about mitigating costs to fill the request. The requester is not obligated to mitigate costs.

If the district has made reasonable efforts to contact the requester in such a case and the requester has failed to respond by the end of the third business day, the records request will be deemed to be withdrawn until a subsequent contact has been made by the requester to the district.

As used in this policy, "reasonable efforts to contact the requester" means contacting the requester through the means of communication that the requester provided to be used by the district to respond to the request.

Fees received by the district for fees charged in accordance with this policy shall be remitted to the treasurer for deposit in the district's general fund.

Disposition

All district office records shall be kept for at least the minimum length of time required by law.

The clerk {or ___} is designated as the official custodian of all board and district office records maintained by the district. Each building principal {or ___} is designated as official custodian of all records maintained at the building level. In addition to those records required by law, the {clerk} shall be responsible for preparing and keeping other records necessary for the district's efficient operation.

District employees shall follow the guidelines found in the student records policies. (See IDAE and JR through JRD)

Exceptions to the required posting of securities shall be only as provided by law and with approval of the board.

All offerings of monies for investment shall state the amount to be invested and the maturity date of each investment.

All banks and savings and loan associations (hereafter "financial institution(s)") with main or branch offices located within the district and the county or counties in which part of the district is located shall be given an opportunity to respond to requests for proposals on monies offered for investment. Monies shall be invested with the financial institution offering the highest interest rate in such amount as the financial institution will accept, and any remaining amounts shall be invested with the financial institution(s) offering the next highest interest rates in such amounts as it will accept until all funds offered for investment are invested. No financial institution shall be eligible to receive any funds in the same offering at a rate lower than its proposal rate.

No proposal less than the most recently determined investment rate as defined in K.S.A. 12-1675a shall be accepted unless otherwise authorized by K.S.A. 12-1675.

Any monies not invested in financial institutions in the district or located in counties in which a part of the school district is located may be invested as authorized by Kansas law.

Monies available for reinvestment as a result of maturities may be reinvested with the financial institution holding such monies provided the financial institution agrees to pay the same or higher rate as that offered by the highest proposal at the time the requests for proposals were accepted.

Unpaid or overdue accounts disrupt accounting practices within the district. All persons who owe overdue fees or have negative account balances with the district shall be notified of the delinquency up to three times in not less than ten day increments by the superintendent or superintendent's designee via letter sent by U.S. First Class Mail providing that the individual owes the district fees or that a specified account has insufficient funds or a negative balance and the reason for the fees or account withdrawals.

If, within ten days after the second notice was mailed, the debt is not paid in full or arrangements have not been made with the superintendent or superintendent's designee to pay it, a third and final notice shall be sent to the debtor by mail. Postage and stationary costs may be added to the original bill.

If full payment is not received by the clerk within ten days after mailing of the final notice, authorization for the enforcement of collection may be obtained through the local small claims court in compliance with Kansas statutes or the superintendent or superintendent's designee may turn the matter over to legal counsel to commence debt collection proceedings on behalf of the district.

Insufficient Funds Checks

The superintendent or the superintendent's designee is authorized to request charges to be filed against a person or persons giving worthless or insufficient fund checks to the school district. In addition, the board adopts the following procedures for dealing with returned checks in the school setting.

Once the person is notified of the first returned check via U.S. First Class Mail, if restitution is made within five working days from the notification being mailed, there will be no charge for a returned check. If after a second notification is sent, restitution is not made within an additional five working days, a fee of $10.00 will be charged.

- If a person has a second returned check, he/she will be notified and assessed a $15.00 fee, providing restitution is made within five working days. After the second notification is mailed concerning the second returned check, a fee of $20.00 will be assessed.
- For a third returned check, the person will be notified, assessed a $30.00 fee, and informed that the district and its schools will not accept any future checks from such person. All future payments to the district or individual schools would then need to be in the form of cash, cashier's check, or credit/debit card payment.
- If restitution of the third check is not made within five working days from mailing the final notification, the superintendent or superintendent's designee will be notified, and the superintendent or superintendent's designee may turn the matter over to the county attorney for legal action.

Any student failing to keep his/her account solvent as required by the district shall not be allowed to charge further meals until the negative account balance has been paid in full. Payments for school meals may be made at any of the school or district offices. Students, parents, and guardians of students are encouraged to prepay meal costs. No adult or staff will be allowed to charge meals at any time.

The school district will reimburse the full amount of any unrecoverable delinquent account to the Food Service department. A student's meal account will be considered unrecoverable when a student graduates or moves out of the district with a negative meal balance. This will be assessed at the end of each school year.

The district will provide a copy of this unpaid meal charges policy to all households at or before the start of school each year and to families and students that transfer into the district at the time of transfer. The terms of this

GAAD Child Abuse (See JCAC and JGEC) GAAD

Any district employee who has reason to know or suspect a child has been injured as a result of physical, mental or emotional abuse or neglect or sexual abuse, shall promptly report the matter to the local Kansas Department for Children and Families (DCF) office or to the local law enforcement agency if the DCF office is not open. Employees may file a report of suspected abuse anonymously to either DCF by phoning 1-800-922-5330 or to local law enforcement officials. The Code for Care of Children also provides civil immunity from prosecution if the report is made in good faith.

The employee making the report will not contact the child's family or any other persons to determine the cause of the suspected abuse or neglect.

DCF or Law Enforcement Access to Students on School Premises

The building principal shall allow a student to be interviewed by DCF or law enforcement representatives on school premises to investigate suspected child abuse and shall act as appropriate to facilitate the agency's access to the child and to protect the student's interests during the process. State law grants the investigating agency the authority to determine whether a school employee may be present while the interview is being conducted, taking into account the child's best interests. If asked to sit in on the interview by the agency representative conducting it, the building principal or designee thereof shall oblige such request in order to provide comfort to the child throughout the process and to facilitate the investigation.

Cooperation Between School and Agencies

Principals shall work with DCF and law enforcement agencies to develop a plan of cooperation for investigating reports of suspected child abuse or neglect. To the extent that safety is not compromised, law enforcement officers investigating complaints of suspected child abuse or neglect on school property shall not be in uniform.

Reporting Procedure

The employee shall promptly report to the local DCF office or law enforcement if DCF is closed. It is recommended the building administrator also be notified after the report is made.

If the building principal has been notified, the principal shall immediately notify the superintendent that the initial report to DCF has been made. If appropriate, the principal may confer with the school's social worker, guidance counselor or psychologist. At no time shall the principal or any other staff member prevent or interfere with the making of a suspected child abuse report.

If available, the following information shall be given by the person making the initial report: name, address and age of the student; name and address of the parents or guardians; nature and extent of injuries or description of neglect or abuse; and any other information that might help establish the cause of the child's condition.

GARID Military Leave GARID

Employees are entitled to military leave under the Uniformed Services Employment and Reemployment Rights Act of 1994. The Act applies to military service that began on or after December 12, 1994 or military service that began before December 12, 1994 if the employee was a reservist or National Guard member who provided notice to the employer before leaving work.

Reemployment rights extend to persons who have been absent from work because of "service in the uniformed services." The uniformed services consist of the following military branches:

Army, Navy, Marine Corps, Air Force or Coast Guard.
Army Reserve, Navy Reserve, Marine Corps Reserve, Air Force Reserve or Coast Guard Reserve.
Army National Guard or Air National Guard.
Commissioned corps of the Public Health Service.
Any other category of persons designated by the President in time of war or emergency.

"Service" in the uniformed services means duty on a voluntary or involuntary basis in a uniformed service, including:

Active duty.
Active duty for training.
Initial active duty for training.
Inactive duty training.
Full-time National Guard duty.
Absence from work for an examination to determine a person's fitness for any of the above types of duty.

The employee may be absent for up to five (5) years for military duty and retain reemployment rights. There are, however, exceptions which can exceed the five (5) year limit. Reemployment protection does not depend on the timing, frequency, duration or nature of an individual's service. The

law enhances protections for disabled veterans including a requirement to provide reasonable accommodations and up to two (2) years to return to work if convalescing from injuries received during service or training.

The returning employee is entitled to be reemployed in the job that they would have attained had they not been absent for military service, with the same seniority, status and pay, as well as other rights and benefits determined by **LAW**. If necessary, the employer must provide training or retraining that enables the employee to refresh or upgrade their skills so they can qualify for reemployment. While the individual is performing military service, he or she is deemed to be on a furlough or leave of absence and is entitled to the non-seniority rights accorded other individuals on non-military leaves of absence. Individuals performing military duty of more than 30 days may elect to continue employer sponsored health care for up to 18 months at a cost of up to 102 percent of the full premium. For military service of less than 31 days, health care coverage is provided as if the individual had never left. All pensions which are a reward for length of service are protected.

Individuals must provide advance written or verbal notice to their employers for all military duty. Notice may be provided by the employee or by the branch of the military in which the individual will be serving.

Notice is not required if military necessity prevents the giving of notice; or, if the giving of notice is otherwise impossible or unreasonable.

Accrued vacation or annual leave may be used (but is not required) while performing military duty. The individual's timeframe for returning to work is based upon the time spent on military duty.

TIME SPENT ON MILITARY DUTY	RETURN TO WORK OR APPLICATION FOR REEMPLOYMENT
Less than 31 days:	Must return at the beginning of the next regularly scheduled work period on the first full day after release from service, taking into account safe travel home plus an eight (8) hour rest period.
More than 30 but less than 181 days:	Must submit an application for reemployment within 14 days of release from service.
More than 180 days:	Must submit an application for reemployment within 90 days of release from service.

The individual's separation from service must be under honorable conditions in order for the person to be entitled to reemployment rights. Documentation showing eligibility for reemployment can be required. The employer has the right to request that an individual who is absent for a period of service of 31 days or more provide documentation showing:

the application for reemployment is timely;

the five-year service limitation has not been exceeded; and

separation from service was under honorable conditions.

If documentation is not readily available or does not exist, the individual must be reemployed. However, if after reemploying the individual, documentation becomes available that shows one or more reemployment requirements were not met, the employer may terminate the individual, effective immediately. The termination does not operate retroactively.

In order for USD #445 to achieve educational equity and excellence for students of all races, ethnicities, and backgrounds, the district will establish a learning climate of high expectations, set annual equity and achievement goals based on recorded gains, and charge the district and school level teams with the responsibility of developing and implementing strategies to eliminate racial achievement disparities while improving achievement for all students.

RATIONALE

In light of the mission, vision, and beliefs, Coffeyville Schools' historic persistent achievement gap (opportunity gap) between White students and students of color is unacceptable. While efforts have been made to address the inequities between students, these efforts have not completely eliminated the gaps. Recognizing that there are other student groups that have not reached their achievement potential, this policy focuses on the most historically persistent achievement gap, which is that between White students and students of color. Race must cease to be a predictor of student achievement and success.

Our current data analysis continues to bring to light that our White students have clearly outperformed Black and Latino students on state assessments in every subject at every grade level. Black students are disciplined more frequently than White students. White students consistently graduate at higher percentages than students of color. These disparities are unacceptable and are directly at odds with our belief that all students can achieve.

EXPECTATION GUIDELINES

The accountability for the disparities among our young people starts with the adults, not the children. We are aware that student achievement data from school districts across the country reveal similar patterns, and that complex

societal and historical factors contribute to the inequities our students face. Nonetheless, rather than perpetuate disparities, USD #445 must address and overcome this inequity and institutional racism by providing all students with the support and opportunity to succeed.

We Must....

Teach students, including students whose first language is not English, using culturally relevant, rigorous and researched based instructional strategies, curriculum, materials and assessments.

Establish annual educational equity and excellence goals to improve the achievement of all students and eliminate racial achievement disparities.

Disaggregate and convert multiple sources of data into meaningful information to identify strengths and needs of individual student, as well as groups of students to inform instructional practices and decision making.

Enact a system of accountability and support at all levels-board, administration, teachers, staff and students.

Monitor and report to the USD #445 school community progress toward the elimination of racial achievement disparities.

Develop and implement equitable practices for and with our students, their families and other community members.

Ensure that racial equity guides employee actions and leads to improved academic results.

Work together to effectively increase teaching capacity, both individually and collectively, to reach student populations that are racially and ethnically diverse.

It may not be reproduced, either in whole or in part, in any form whatsoever, to be given, sold or transmitted to any person or entity including but not limited to another school district, organization, company or corporation without written permission from KASB.

In conclusion to this rationale, USD #445 welcomes and empowers students and families as essential partners in their student's education, school planning and district decision-making. The District will create welcoming environments that reflect and support the racial and ethnic diversity of the student population and community. In addition, the District will include other partners who have demonstrated culturally specific expertise—including government agencies, non-profit organizations, businesses, and the community in general—in meeting our educational outcomes.

Race definition:

For the purpose of this policy and rationale, "race" is defined as "A social construct that artificially divides people into distinct groups based on characteristics such as physical appearance (particularly color), ancestral heritage, cultural affiliation, cultural history, ethnic classification, and the social, economic, and political needs of a society at a given period of time. Racial categories subsume ethnic groups." Maurianne Adams, Lee Anne Bell, and Pat Griffin editors. Teaching for Diversity and Social Justices: A Sourcebook (2007)

The board shall combine academic study with the stimulation and challenges necessary to engage the minds of all students and with the variation of pace, topic, and activity important to sustaining their interest. The major goals of the district's dropout prevention program shall be to: identify individual needs at the earliest stage and provide instruction designed to improve and expand basic reading, writing, and speaking skills so that every student is capable of keeping up with his classmates throughout his school career; develop an incentive and reward system which reinforces pride in academic achievement and replaces the expectation of failure so prevalent in the dropout scenario; offer a teaching and counseling curriculum designed to provide students graduating from high school with valuable skills, career direction, and the possibility of future employment; encourage high risk students to participate in school activities in order to combat the school isolation common to dropouts; and communicate with parents and students regarding the value of education in their lives.

IDCG Student Suicide Awareness and Prevention IDCG

The board believes the physical and mental well-being of students must be maintained as a prerequisite to achievement through the educational process and wishes to initiate and continue appropriate youth suicide awareness and prevention programs in the district in an effort to safeguard its students.

The staff of the district, as well as the students, can benefit from and contribute toward the prevention of student suicide. The success of such an effort depends to a large extent upon the understanding and support of the total community.

The board directs the superintendent to develop and implement a comprehensive and student suicide awareness and intervention program for the district. Since the necessary professional expertise to carry out such a program adequately may not be available within the school system, it also directs the superintendent to identify a community mental health agency able to provide the necessary assistance and to establish a continuing cooperative relationship with the agency in this effort.

IKDA - Religious Objections to Activities

(See IF and IKD)

The board recognizes parents have the fundamental right to direct the religious upbringing of their children. Furthermore, Kansas law supports the ability of a parent or person acting as a parent to request their child not be required to participate in a school activity which is contrary to the religious teachings of their child. To assist district staff in consistently accommodating these rights, the board adopts the following policy.

For the purposes of this policy, terms shall have the following meanings.

"Activity" shall be deemed to include, but may not be limited to, any academic assignment, curricular lecture, presentation or planned classroom discussion; classroom project; subject-specific instruction; direct exposure to assigned reading material (whether read to or by the class or assigned to the student for independent consumption); or assembly. This term shall not be interpreted to apply to an entire course of study, except when a course of study is an elective course not required for graduation and alternative courses are available for the student's enrollment and participation at the time of objection.

Parents or persons acting as parents shall be notified in advance and given the opportunity to opt their child out of any activity addressing topics that are known to be or are reasonably ascertainable to be contrary to the religious beliefs of the parents, persons acting as parents, or students themselves.

A parent or person acting as a parent (or a student eighteen years of age or older) may request that the student be excused from participating in activities for religious reasons. The parent, person acting as a parent, or adult student must complete the district opt-out form for religious objections, stating the specific activity, the portion of the curriculum in which the activity exists, and the reasons for the request. The request may be granted, or denied, or partially granted and partially denied.

A parent or person acting as a parent seeking to remove their child from activities contrary to the child's religious teachings must complete the district's Activity Participation Opt-Out Form regarding religious objections which is available in the school office. Parents and persons acting as parents desiring to opt their children out of activities due to religious reasons must return the completed and signed form to the principal. The form must be submitted within a reasonable amount of time prior to the scheduled activity in order to allow time for the principal to consider the request. The completed form shall be kept on file in the school office, and the principal shall receive a copy.

The principal shall review the request and determine whether the request should be granted or denied. The principal shall notify the parents or persons acting as parents of the decision within a

reasonable amount of time after the request is submitted. If the parents are dissatisfied with the principal's decision, they may appeal in writing to the superintendent.

If the opt-out request is granted, the school may provide an appropriate alternative assignment or academic activity aligned with the same learning goals without penalty to the student.

Opt-out requests must be submitted annually and are valid only for the school year in which they are submitted.

Nothing in this policy shall be interpreted to allow a parent, person acting as a parent, or adult student to opt a student out of entire courses which have been deemed required graduation requirements by the board or by the state of Kansas, except as otherwise provided by law. Parents and persons acting as parents of middle or high school students are encouraged to assist students in monitoring available course offerings and their descriptions near enrollment periods in order to make appropriate course selections in line with state required graduation requirements while still accommodating the child's sincerely held religious beliefs.

ING **Animals and Plants in the School** **ING**

With the prior approval of the principal, animals or plants may be brought to school for instructional purposes.

If someone is injured by an animal or comes into contact with a toxic plant, the incident shall be immediately reported to the administration by the supervising teacher. The principal shall notify the appropriate persons.

Service Animals in the Schools

Service animals may be permitted in the schools and on school property in accordance with board-approved guidelines and may be used by employees, patrons, and students. In order for the district to accommodate the health and safety of our students and staff while maintaining our educational services, programs, and activities, employees and students are encouraged to notify their building administrator prior to bringing a service animal to school for the first time. Patrons or individuals attending functions or having short term business on school property are not required to provide advance notice to school staff in order to be accompanied by a service animal on school property.

Access to school buildings will not be denied to a service animal as long as the animal is individually trained and required to do work or perform tasks for the benefit of an individual with a disability. Such work or tasks must be directly related to the individual's disability. District staff shall not be responsible to provide care or control of a service animal, and any service animal which is out of control or is not housebroken may be excluded by district staff.

This policy does not apply to animals provided by the school for instructional purposes or for therapy or comfort dogs.

All students enrolling in the district for the first time shall provide required proof of identity. Students enrolling in kindergarten or first grade shall provide a certified copy of their birth certificate, a certified copy of the court order placing the child in the custody of the Secretary of the Department for Children and Families, or other documentation which the board determines to be satisfactory. The above requirements are not to serve as barriers to immediate enrollment of students designated as homeless or foster children as required by the Every Student Succeeds Act (ESSA) and the McKinney-Vento Act as amended by ESSA. The district shall work with the Department for Children and Families, the school last attended, or other relevant agencies to obtain necessary enrollment documentation.

If proper proof of identity is not provided within 30 days of enrolling, the superintendent shall notify local law enforcement officials as required by law and shall not notify any person claiming custody of the child.

Enrollment Information

The enrollment documentation shall include a student's permanent record card with a student's legal name as it appears on the birth certificate or as changed by a court order and the name, address, and telephone number of the lawful custodian. JBCC - Enrollment of Nonresident Students

(See JBC, JBCA, JBCB, and JQKA)

Kansas law requires the board to allow nonresident students to enroll in and attend the schools of the district if the board's capacity determination finds there are open seats for such students. In order to determine the district's capacity to accept nonresident students at each grade level in each district school, the board has adopted this policy.

Details concerning the nonresident enrollment and continued enrollment processes for nonresident students may be found in this policy, while general processes on enrollment documentation, assignment to buildings and classes, etc., may be found in board policy JBC.

This policy does not apply to any virtual school, as defined by Kansas law, or to any school located on a military installation.

Any child who is experiencing homelessness shall be permitted to enroll in and attend the school district of origin or the school district of residence without application and acceptance through this policy.

Definitions

For the purposes of this policy, the following definitions apply.

"Homeless child" means a child who lacks a fixed, regular and adequate nighttime residence and whose primary nighttime residence is:

A. A supervised publicly or privately operated shelter designed to provide temporary living accommodations, including welfare hotels, congregate shelters and transitional housing for the mentally ill;

B. an institution that provides a temporary residence for individuals intended to be institutionalized; or

C. a public or private place not designed for, or ordinarily used as, a regular sleeping accommodation for humans.

"Nonresident student" means a child of school age, pursuant to Kansas law, who resides in Kansas and is enrolled and in attendance at or seeking to enroll and attend a school located in a district where such student is not a resident.

"Parent" means and includes natural parents, adoptive parents, stepparents, and foster parents.

"Person acting as parent" means:

A. A guardian or conservator; or

B. a person, other than a parent, who:

   i. Is liable by law to maintain, care for or support the child;

ii. has actual care and control of the child and is contributing the major portion of the cost of support of the child;

iii. has actual care and control of the child with the written consent of a person who has legal custody of the child; or

iv. has been granted custody of the child by a court of competent jurisdiction.

"Receiving school district" means a school district of nonresidence of a student who attends school in such school district.

"Sibling" means a brother or sister of the whole or half blood, adoptive brother or sister, a stepbrother or stepsister or a foster brother or foster sister.

Determining Capacity for Nonresident Enrollment

The superintendent or designee has the responsibility for studying capacity in each school of the school district and at each grade level within each school and for making recommendations to the board regarding the district's capacity to accept nonresident students. To make recommendations to the board to assist with determining capacity, the superintendent or the superintendent's designee(s) shall do the following.

The superintendent or designee shall develop recommendations on capacity and classroom student-to-teacher ratios in each grade level in each school serving kindergarten students and students in grades one through eight. Such recommendations may be based on, but not be limited to, the following factors:

- Present classroom student-teacher ratios in each grade level in each school;
- projected enrollment shifts based on the resident student population, which may include a percentage adjustment for anticipated growth or decline based on documented enrollment trends; and
- maximum capacity of the classroom and associated learning, activity, and common area spaces.

The superintendent or designee shall develop recommendations on capacity and student-to-teacher ratios for each school building or program serving students in grades nine through twelve. Such recommendations may be based on, but not be limited to, the following factors:

- Present building or program student-teacher ratios;
- projected enrollment shifts based on the resident student population, which may include a percentage adjustment for anticipated growth or decline based on documented enrollment trends;

- anticipated demand for particular courses or programming; and
- maximum capacity of the classroom and associated learning, activity, and common area spaces.

On or before May 1st of each year, the superintendent shall present the recommendations concerning capacity and student-to-teacher ratios to the board for adoption or modification, and the board shall determine, for each grade level in each school building of the school district for the next succeeding school year, the following:

- Capacity based on the study conducted by the superintendent or the superintendent's designee;
- the number of students expected to attend school in the school district; and
- the number of open seats available to nonresidents at each grade, building, or program level.

On or before June 1st of each year, the district shall publish the number of open seats available to nonresident students in each grade level for each school building of the district for the next succeeding school year on the school district's website.

From January 1st through June 15th, district administration shall accept applications from nonresident students seeking to enroll in and attend the district in the next school year.

If the number of applications for a grade level in a school building is less than the number of available seats for that grade level in the school building, the nonresident students shall be accepted for enrollment and attendance at the school district, unless the nonresident student is deemed not in good standing.

If the number of applications for a grade level in a school building is greater than the number of available seats for the grade level in the school building, district administration shall randomly select nonresident students deemed in good standing using a confidential lottery process. This process shall be completed on or before July 15th of each year.

The district shall provide to the parent or person acting as a parent of a nonresident student who was not accepted for or denied enrollment at such school district the reason for the nonacceptance or denial and an explanation of the nonresident student selection process on or before July 30th of each year.

Priority in Filling Open Seats

Regardless of capacity determinations, the following categories of students shall be allowed to enroll as if resident students if they are deemed to be in good standing by district administration:

- any child who is in the custody of the Department for Children and Families and who is living in the home of a nonresident student who transfers to the district; or

- any nonresident student who has a parent or person acting as parent employed by the district, while the parent or person acting as a parent remains employed by the district.

Subject to having capacity to enroll nonresident students, the district shall give priority in enrollment to the following nonresident students deemed in good standing to enroll. These students shall receive open seats without necessity of being selected through any open-seat lottery:

- Any sibling of a nonresident student who is enrolled in and attending school in the district or who is accepted to enroll in and attend school in the district, with priority given when the nonresident student is first accepted and, if necessary, at any other time the district considers transfer applications; and
- any nonresident student who is a military student as defined in K.S.A. 72-5139, with priority given when the student is first accepted and, if necessary, at any other time the district considers transfer applications.

If one of these exceptions no longer applies to the student, the student's enrollment status would be subject to review based upon the considerations for determining good standing in this policy.

Prohibitions Regarding Open Enrollment Provisions of this Policy

The district shall not:

- Charge tuition or fees to any nonresident student who transfers to the district pursuant to this policy, except fees that are otherwise charged to every student enrolled in and attending school in the district; or
- accept or deny a nonresident student transfer based on ethnicity; national origin; gender; income level; disabling condition; proficiency in the English language; or measure of achievement, aptitude, or athletic ability.

Except for a child in the custody of the Department for Children and Families or a child who is experiencing homelessness, a nonresident student shall not transfer more than once per school year to one or more receiving school districts pursuant to the provisions of this policy or authorizing Kansas law.

Transportation of Students

Neither a resident school district nor a receiving school district shall be required to provide transportation to nonresident students unless otherwise required by applicable law. If space is available on district transportation vehicles, the district may assign nonresident students an in-district bus stop to and from which transportation may be provided by the district for nonresident students. The receiving district may provide transportation from the student's residence by notifying the sending district of the receiving district's intent to provide transportation. The district shall ensure that transportation for nonresident homeless students is provided comparably to that of housed students.

KSHSAA Eligibility

Nothing in this policy or state law shall exempt a nonresident student who transfers into the district from the requirements of the Kansas State High School Activities Association ("KSHSAA") regarding eligibility to participate in KSHSAA activities.

Information Share with the Kansas State Department of Education

The superintendent shall annually submit, or have submitted, to the Kansas State Department of Education this policy, the number of nonresident student transfers approved and denied in each grade level, and whether the denials were based on capacity or in accordance with the policy's terms.

Nonresident Student Continued Enrollment

A nonresident student who has been accepted for enrollment and attendance at a district school shall be permitted to continue enrollment and attendance in the district until such student graduates from high school, reaches the age of 21 (if the student is a student with an exceptionality, not solely eligible for gifted services under an individualized education program), or receives a G.E.D., unless such student is no longer deemed by district administration to be in good standing.

Except as otherwise specified herein, nonresident students who were enrolled in and attending the district during school year 2023-2024, who were attending the district as a resident student in 2023-2024 but have since moved out of the district, or who have been accepted for enrollment by the school district on or after June 1, 2024, will be allowed to continue enrollment in the district as specified above. The district will not require parents of such students or adult or emancipated students to resubmit a new application each school year.

Determining Good Standing

Regardless of capacity to accept nonresident students at a nonresident student's grade level or in the student's designated school or program, an individual student may be denied enrollment or continued enrollment for not being in good standing. Nonresident student applicants for enrollment and nonresident students already enrolled in and attending school in the district shall be evaluated by district administration to determine standing for enrollment or continued enrollment.

Students may be denied enrollment or continued enrollment for the next school year based on the results of these evaluations. However, if the student has a disability, the student's ability to meet these expectations shall be considered prior to denying continued enrollment in the district. Similarly, administration shall consider the adverse impact of homelessness on a student's attendance and any resulting suspensions or expulsions before making a determination on the enrollment or continued enrollment of a student who is homeless. As part of this reflection, administration shall consider the

obstacles a homeless student faces to arrive at school on time or each day due to housing instability, lack of transportation, or lack of other basic resources that can hinder consistent attendance.

A student meeting one or more of the following criteria shall automatically be deemed not in good standing and may be denied enrollment or continued enrollment based solely thereon.

- The nonresident student failed to maintain a 90% attendance rate in the last school year, excluding excused absences under board policy JBD and/or any relevant student handbook language;
- the nonresident student or the student's parent or person acting as a parent provided false or fraudulent information in the application process;
- the nonresident student is not a Kansas resident;
- the student is currently under a period of suspension or expulsion from any Kansas school district, and such suspension or expulsion will not expire until after the next school year has begun.
- the student has had three or more out-of-school suspensions in the current school year, excluding suspensions determined to be a manifestation of the student's disability or a failure on the part of school staff to implement an individualized education program, Section 504 plan, or behavior intervention plan; or
- the student has been given a long-term suspension or expulsion by a school district in the current school year.

Parents shall be informed of any administrative decision not to enroll or to discontinue enrollment of a nonresident student.

If district administration denies the enrollment application of a nonresident student due to the school district deeming the nonresident student as not in good standing, the parent or person acting as a parent of such student may appeal the decision to the board. A current nonresident student who is determined not to be in good standing shall not be entitled to the appeal process outlined herein.

Any student who has been denied enrollment or continued enrollment due to being deemed not in good standing may reapply for nonresident enrollment in subsequent school years.

Appeal Process

If a nonresident student's application for enrollment is denied because the student is determined not to be in good standing, the parent or person acting as a parent may appeal the administrative decision to the board.

If a parent or person acting as a parent wishes to appeal this decision, a written request for an appeal must be submitted to the clerk of the board within 10 days of receiving notice the student's application has been denied for lack of good standing. Such request shall include the individual's reasons for disagreeing with the administration's decision.

The board shall consider any appeal of these decisions and any supplemental documentation provided therewith at the next regularly scheduled board meeting following receipt of the request for appeal, and the board's designee shall notify the requestor of the result of the appeal in writing within 10 days of the board's decision thereon.

Enrollment of Out-of-State Students

If capacity for nonresident student enrollment remains after the aforementioned application, enrollment, and the disenrollment process has concluded, district administration may consider applications for enrollment submitted by students who are not Kansas residents. However, priority in enrollment shall be given to Kansas residents.

If a student who is an out-of-state resident is in good standing and has a parent or a person acting as a parent who is employed by the district, district administration may allow the student to enroll in and attend school in the district as if they were a resident of the district.

JCAC - Interrogation and Investigations

(See EBC, GAAD, JCABB, JCEC and JHCAA)

Building administrators and others designated by the superintendent may conduct investigations and question students about violation of school rules or the student conduct code . Unless otherwise provided herein, such investigators shall not be required to contact the student's parent, guardian, or representative prior to questioning. If administration requests law enforcement, including a school resource officer, school security officer, or campus police officer, for assistance in conducting interviews during an investigation, administration shall contact a parent, guardian, or representative of the student prior to any questioning.

If there is reason to believe a violation of criminal law has been committed, the building administrator or the superintendent's designee shall notify the appropriate law enforcement agency of criminal conduct as provided in law, the district's juvenile justice memorandum of understanding, or board policy and may request further investigation of the alleged violation.

When a school resource officer, school security officer, or campus police officer initiates an investigation of a potential violation of criminal law by a student on the officer's own initiative and not at the request of a building administrator or the superintendent's designee, such officer will notify the building administrator and will contact the student's parent, guardian, or representative prior to initiating questioning.

Coordination with Law Enforcement

School administrators or the superintendent's designee shall meet as needed with relevant stakeholders, including law enforcement agencies, the courts, and the district and county attorneys, to discuss the district's juvenile justice memorandum of understanding to establish clear guidelines for how and when school-based behaviors are referred to law enforcement or the juvenile justice system.

Child Abuse and Identity Investigations Conducted by Law Enforcement Officers

The administration shall cooperate with law enforcement officers who are conducting investigations of suspected child abuse or neglect or concerning the student's identity. For any investigations concerning known or suspected child abuse or neglect, school staff shall follow the procedures outlined in board policy GAAD instead of the requirements of this policy.

Law Enforcement Initiated Investigations at School

In cases not involving the investigation of known or suspected child abuse or neglect or involving the student's identity, law enforcement officers shall not be permitted to initiate and conduct investigations involving the questioning of students during school hours unless the student's parent or guardian has given the school permission to allow the questioning, a valid warrant has been presented to

the building administrator for such purpose, or in demonstrated emergency situations. Contact with the parent, guardian, or representative shall be documented by the administrator involved. If a student's parent, guardian, or representative gives permission for the interview but is not present during the questioning of the student, the principal may be present unless otherwise specified in law or board policy. If a demonstrated emergency is found, the building administrator shall require identification of law enforcement officials and reasons for the interrogation or investigation of a student. If the building administrator is not satisfied with either the identification or the reason, the request shall not be granted. The building administrator shall attempt to notify the superintendent and the officer's superiors of the reasons for the refusal.

Taking Students Into Custody

Students shall not be voluntarily released by school officials to law enforcement authorities unless the student has been placed under arrest or taken into custody by law enforcement or Department for Children and Families ("DCF") authorities pursuant to a child abuse investigation. Except as otherwise specified in this policy or as specified in a court order or arrest warrant, a reasonable effort shall be made to notify the student's parent, guardian, or representative when students are removed from school for any reason. Such notification efforts shall be documented. Parents shall not be notified by school officials when their child is taken into custody by DCF or law enforcement as a result of allegations of abuse or neglect and there is reason to believe sharing the information may lead to harm of the child or others.

When a student has been taken into custody or arrested on school premises without prior notification to the building administrator, the school staff present shall ask the law enforcement officer to notify the building administrator of the circumstances as quickly as possible and shall themselves contact the building administrator with any information they have regarding the child being taken into custody.

Disturbance of School Environment

Law enforcement officers, school resource officers, school security officers, or campus police officers may be requested to assist in controlling disturbances at school and, if necessary, to take students or other persons into custody.

Definition

For the purposes of this policy, "school security officer" and "campus police officer" are defined as outlined in Kansas statute.

For the purposes of this policy, students will not be deemed to be "taken into custody" when they are being questioned by a school resource officer, school security officer, and/or campus police officer about a violation of state law, county resolutions, city ordinances, board policy or regulation, and/or

school rules on property owned, occupied, or operated by the school district or at the site of a function sponsored by the school district.

Supervision of Medications **JGFGB**

(See JGFGBA)

The supervision of medications shall be in strict compliance with the rules and regulations of the board as carried out by district personnel. Diagnosis and treatment of illness and the prescribing of drugs and medicines are not the responsibility of the public schools and are not to be practiced by any school personnel, including school nurses, unless authorized. No medications shall be dispensed or administered if prohibited by state law.

In certain circumstances when medication is necessary for the student to remain in school, the school may cooperate with parents in the supervision of medication that the student will use. However, the medical person authorized to prescribe medication or the parent if it is a non-prescription medication must send a written order to the building administrator who may supervise the administration of the medication or treatment. The parents must submit a written request to the building administrator requesting the school's cooperation in such supervision and releasing the school district and personnel from liability.

School personnel shall not be required to be custodians of any medication except as required by a written order of a licensed medical person or in the case of nonprescription medication when requested in writing by the parents.

The medication shall be examined by the school employee administering it to determine that it appears to be in the original container, to be properly labeled, and to be properly authorized by the written order of licensed medical person. Two containers, one for home and one for school, should be requested from the pharmacist.

Any changes in type of drugs, dosage, and/or time of administration should be accompanied by updated physician and parent permission signatures and a newly labeled pharmacy container.

All medication maintained in the school setting should be kept in a locked container. This includes medication requiring refrigeration.

Medications should be inventoried every semester. Out-of-date stock should be returned to the parent or destroyed.

Over-the-counter medications should not be maintained on any school premises, including athletic areas, unless written parent permission to administer is obtained.

The building administrator may choose to discontinue the administration of medication provided that the parents or medical person are notified in advance of the date and the reasons for the discontinuance.

After medication is administered, students should be observed for possible reactions to the medication. This observation may occur at the site of administration or in the classroom as a part of the normal routine.

This policy shall be shared with all local physicians and dentists where practicable. Forms should also be made available to the health care providers in the community.

An individual record should be kept of each medication administered. The record should include student identification, date prescribed, name of medication, time and date(s) administered, signature of person administering and section for comments.

In the administration of medication, the school employee shall not be deemed to have assumed any legal responsibility other than acting as a duly authorized employee of the school district.

Upon presentation of proper credentials, members of the press on assignment will be admitted free of charge to all school extra-curricular activities. To the extent possible, space will be provided at sporting and special events for members of the working media to cover extra-curricular activities.

Broadcasting, Livestreaming, and Recording

The superintendent is authorized to establish rules and regulations for broadcasting, livestreaming, and recording district activities in accordance with any relevant law and KSHSAA rules governing any particular event.

The appropriate building principal shall be responsible for determining eligibility, ensuring proper security protocols, and issuing passes to press members on assignment to cover school events. Members of the broadcast media are encouraged to notify the superintendent or building principal prior to the event they wish to cover, so arrangements may be made to accommodate their equipment.

The board is not obligated to broadcast, livestream, or record its board meetings. However, if the board elects to livestream any board meeting on television, the internet, or any other medium, all aspects of any such open meeting will be available through the selected medium for the public to observe, absent any unintentional technological failure or action taken by the provider of the medium disrupting or preventing the livestream.

News Releases

News and information concerning building events and programs may be released to the media with the approval of the principal. District news releases prepared for public distribution by district employees or students shall have the superintendent's approval prior to release. The superintendent shall, upon request, prepare official district news releases for the board.

Conferences and Interviews

News conferences and interviews shall be scheduled so they do not disrupt regular educational activities. Representatives of the news media seeking to interview a student during school hours must first have the principal's approval and permission from the student's parent or guardian.

This rule applies to those activities, promotions and sales originating outside the school. Exception to this rule may be made as outlined below.

Materials and projects submitted for consideration under this rule must be made in writing to the superintendent. Requests will be considered in light of the proposal's direct contribution to the educational values in the school. Consideration shall be on the basis of unreasonably added work for staff members.

Any individuals or organizations violating the policy on solicitations shall be reported to the board by the superintendent. Violators may be denied further access to school premises by board action.

Insurance and/or Bonds

The board, through its duly authorized agent, reserves the right to require bonds (cash or otherwise), insurance, or other damage deposits, acceptable to the board before allowing use of the schools' facilities. Complaints **KN**

(See BCBI, DE, GAAC, GAACA, GAAB, GAAF, IF, IKD, JCE, JGEC, JGECA, and KNA)

General Complaints

The board encourages all complaints regarding the district to be resolved at the lowest possible administrative level. If the investigation and determination procedures of a complaint are not regulated in another board policy or the negotiated agreement, as applicable, it will be designated a general complaint subject to processing under this policy. Whenever a general complaint is made directly to the board as a whole or to a board member as an individual, it will be referred to the administration for study and possible resolution pursuant to the procedures outlined in this policy.

Informal Procedures

The building principal shall attempt to resolve general complaints in an informal manner at the building level. Any school employee who receives a general complaint shall inform the individual of the employee's obligation to report the complaint and any proposed resolution of the complaint to the building principal. Upon becoming aware of a complaint, the building principal shall, within a reasonable time, but without delay, discuss the complaint with the individual to determine if it can be resolved. If the matter is resolved to the satisfaction of the individual, the building principal shall document the nature of the complaint and the proposed resolution and forward this record to the district compliance coordinator.

If the matter is not resolved to the satisfaction of the individual in the meeting with the principal, or if the individual does not believe the resolution remains acceptable, the individual may initiate a formal complaint.

Formal Complaint Procedures

- A formal complaint shall be filed within 10 school days of the conclusion of the informal procedures. The formal complaint shall be in writing and contain the name and address of the person filing the complaint. The complaint shall briefly describe the alleged violation. If an individual does not wish to file a written complaint, and the matter has not been adequately resolved through the informal procedures, the building principal may initiate the complaint. Forms for filing written complaints are available in each school building office and the central office.
- If appropriate, an investigation shall follow the filing of the complaint. If the complaint is against the superintendent, the board may appoint an investigating officer. In other instances, the investigation shall be conducted by the building principal, the compliance coordinator, or another individual appointed by the board or the superintendent. The investigation shall be informal but thorough. The complainant and the respondent will be afforded an opportunity

to submit written or oral evidence relevant to the complaint and to provide the names of potential witnesses who may have useful information.

- A written determination of the complaint's validity and a description of the resolution shall be issued by the investigator and forwarded to the complainant and the respondent. If the investigator anticipates a determination will not be issued within 45 days after the filing of the complaint, the investigator shall provide written notification to the parties including an anticipated deadline for completion.
    - If the investigation results in a recommendation that a student or staff member be subject to discipline, the specifics will not be included in the written determination provided to the parties to protect the privacy rights of the student or staff member.
    - If the investigation results in a recommendation that a student be suspended or expelled, procedures outlined in board policy and state law governing student suspension and expulsion will be followed.
    - If the investigation results in a recommendation that an employee be suspended without pay or terminated, procedures outlined in board policy, the negotiated agreement (as applicable), and state law will be followed.
- Records relating to complaints filed and their resolution shall be forwarded to and maintained in a confidential manner by the district compliance coordinator.

Appeal Procedures

The complainant or respondent may appeal the determination of the complaint. Appeals shall be heard by the district compliance coordinator, a hearing officer appointed by the board or superintendent, or by the board itself. The request to appeal the determination shall be made within 20 days after the date of the written determination of the complaint at the lower level. The appeal officer shall review the evidence gathered by the investigator at the lower level and the investigator's report and shall afford the complainant and the respondent an opportunity to submit further evidence, orally or in writing, within 10 days after the appeal is filed. Whenever an appeal officer is appointed to review an appeal, the appeal officer will prepare a written report to the board within 30 days after the appeal is submitted for decision. The board shall render its decision not later than the next regularly scheduled meeting of the board following the receipt of the report and provide the parties with notice of the result of the appeal. Any matter determined by the board in accordance with this process shall be valid to the same extent as if the matter were fully heard by the board without an appeal officer.

Use of this complaint procedure is not a prerequisite to the pursuit of any other remedies including the right to file a complaint with the Office for Civil Rights of the U.S. Department of Education, the Equal Employment Opportunity Commission, or the Kansas Human Rights Commission.

If it is determined at any level that a violation of board policy or school rules occurred, the district will take prompt, remedial action to prevent reoccurrence. The district prohibits retaliation or discrimination against any person for participating in the complaint process; or making a complaint, testifying, assisting, or participating in any investigation, proceeding, or hearing.

Complaints Against the Superintendent

A complaint against the superintendent shall be filed in writing with the clerk of the board of education as soon as possible after the conduct occurs that led to filing a complaint but not later than 20 days after the complainant becomes aware of the alleged violation, unless the conduct forming the complaint is ongoing. If appropriate, the board, or the board's designee, shall investigate the complaint. If the board appoints a designee to conduct the investigation, the designee shall submit a report of the designee's findings upon which the board will decide the complaint. The board shall review the report and decide the matter as soon as reasonably possible but not later than sixty (60) days after the complaint is filed. After the board has reviewed the report, it may, in its sole discretion, request a meeting with the investigator or any party. The board may extend the timeframe for issuing a decision by providing the complainant with written notice of the proposed decision date. There is no appeal from the board's decision.

Complaints About Discrimination on the Basis of Sex

Complaints regarding alleged discrimination on the basis of sex, as prohibited by Title IX of the Education Amendments of 1972 and other federal and state laws regulating such discrimination and discriminatory harassment, shall be handled in accordance with the procedures outlined in board policies GAAC, for staff, and JGEC, for students, and shall be directed to the Title IX Coordinator at (Position or name, address, email address, and phone number of Title IX Coordinator).

Complaints About Discrimination or Discriminatory Harassment Not on the Basis of Sex

Discrimination against any individual on the basis of race, color, national origin, sex, disability, age, genetic information, or religion in the admission to, access to, treatment, or employment in the district's programs and activities is prohibited. (Position, address, email address, and phone number of the district compliance coordinator) has been designated to coordinate compliance with nondiscrimination requirements contained in Title VI and Title VII of the Civil Rights Act of 1964 (with the exception of discrimination on the basis of sex), Section 504 of the Rehabilitation Act of 1973, and the Americans with

Disabilities Act of 1990, the Age Discrimination Act of 1975, the Personal Responsibility Work Opportunity Reconciliation Act of 1996, and the Food Stamp Act of 1977, as amended.

For more information regarding what qualifies as discrimination or harassment on the basis of race or disability, see board policies GAACA applying to staff members and JGECA applying to students.

The superintendent shall regularly report to the board on the district's progress toward full accreditation within the 5 year cycle defined as part of the KESA process.
