Parents/guardians will receive school closing, late start, and early dismissal notifications through our automated communication system via phone call, text message, and/or email. Please ensure your contact information is up to date. If any changes are needed, please contact the school office.

A two-hour late start may be announced the evening before or the morning of school when inclement weather is in the forecast. This allows additional time to assess actual weather and road conditions before making a final decision on whether to have school. If a late start is announced, please continue monitoring communications for any updates or changes.

Parents/guardians of young children who work outside the home are encouraged to make appropriate arrangements in the event of an early dismissal. Please ensure that young children will have a safe, supervised place to go if school is dismissed early.

Ultimately, parents/guardians are responsible for deciding whether it is safe for their child to travel to school during inclement weather. You may choose to keep your child home if you feel conditions are unsafe. Likewise, if weather conditions worsen during the school day, you may choose to pick up your child early.

We also appreciate your support in ensuring that students are dressed appropriately for winter weather. Children and teens may sometimes be reluctant to wear the necessary cold-weather clothing, but it is important that they come to school and school-sponsored activities prepared for cold temperatures. Please make sure your child has appropriate winter clothing, including a warm coat, hat, gloves, and other necessary items.

Thank you for your cooperation, understanding, and commitment to keeping our students safe during the winter months!
