Colbert County High School

Strategy Map 2026 - 2027

VISION

"Kids from Colbert County Can..."

MISSION

The mission of Colbert County Schools is to provide an equitable education for every student in Colbert County through devoted teachers and staff that will ensure a safe and supportive learning environment preparing pathways to a successful future.

BELIEFS

1) CCS will provide a challenging curriculum through supportive learning environments and high expectations. 2) CCS will foster a culture of life-long learning. 3) CCS will provide a safe and nurturing learning environment. 4) CCS will prioritize stakeholder involvement, collaboration, and leadership.

	Student Achievement	Staff Support	Student Support
OBJECTIVE	• To provide students with a high-quality education that supports student achievement and growth.	• To increase a combination of professional development opportunities, curriculum support, and leadership support that will provide faculty and staff with tools needed for success in the classroom.	• To provide students with a safe and healthy learning environment to support student success through all aspects of education.
CRITICAL INITIATIVES	• CCHS will utilize the use of the ACAP Practice testing during the 2026-2027 school year to monitor ELA and Math progress for our 6-8 grade students. • CCHS will provide targeted professional developments for teachers and implement iReady Reading and Math diagnostics assessments throughout the 2026-2027 school years. • CCHS will increase participation and successful completion of CTE and Dual Enrollment programs during the 2026-2027 school year as measured by enrollment data, course completion rates, and credential attainment.	• Provide professional development, collaborative planning opportunities, instructional coaching, and curriculum resources that enable leaders to provide ongoing feedback, coaching, and resources to faculty and staff. • Faculty will demonstrate increased capacity to deliver high-quality, standards-aligned instruction, resulting in improved student outcomes. Data meetings will be held monthly with administration. • Increase in the percentage of teachers demonstrating effective instructional practices, as measured by classroom observations and walkthrough data.	• CCHS students will feel safe and student health and personal growth will be provided for. • Strengthen partnerships among all stakeholders to ensure students have a system of academic, social-emotional, and physical wellness supports that increases student success. • Implement proactive safety measures, emergency preparedness, and ongoing evaluation of safety procedures to ensure students and staff experience a safe learning environment.
INTENDED OUTCOMES	• Students will demonstrate improved ELA and Math proficiency through assessment results to improve instruction and targeted intervention. • Students will demonstrate improved ELA and Math proficency through timely data driven instruction, targeted interventions, and ongoing progress monito • Increase enrollment of students' exposure to college and career opportunities	• Faculty will strengthen instructional practices through PD opportunities, improving student learning, achievement, and exposure to learned strategies. • Faculty will demonstrate a common understanding and strengthen collaboration, mentoring, and feedback, improving student learning and achievement • Faculty will demonstrate delivering standards - aligned lesson plans and classroom instruction resulting in improved student outcomes	• CCHS will establish a safe and supportive environment with emergency protocols and prevention measures. • Students will have increased access to coordinated community support to improve student attendance, academic and emotional success • Continue to improve student and staff preparedness for possible safety threats and natural disasters
KEY MEASURES	• Increase the percentage of students meeting or exceeding grade level expectations • Increase percentage of students at CCHS that are college and career ready through attainment of college/CTE CRI or campus visits	• Colbert County High School will demonstrate increased consistency in instructional practices and improved student achievement. • Increase in percentage in teachers demonstrating effective instructional practices, measured in monthly data meetings and content standard reports • Measured by adminsitative walkthrough observation data throughout the year	• Increase the numbers of students and staff who report feeling safe and supported at school, measured by annual school climate and safety survey • Increase in the percentage of students receiving timely, coordinated supports with community agencies and/or stakeholders. • Increase participation and successful completion of monthy safety drills, utilizing circool monitoring system, and weapons detectors to lower threats
