II. Five-Year Developer Fee Findings

The following findings are made in connection with the public information set forth in the District's 2025-2026 Annual Developer Fee Report.

A. PURPOSE TO WHICH DEVELOPER FEE IS TO BE PUT (Gov. Code, §66001(d)(1)(A)): With respect to only that portion of the Developer Fees Fund remaining unexpended at the end of the 2025-2026 fiscal year, the purpose of the Developer Fees is to finance the construction or reconstruction, including refurbishment, of School Facilities necessary to accommodate student population growth resulting from development, cover costs attributable to the increased demand for School Facilities reasonably related to new development and necessary to maintain existing levels of service, and reduce overcrowding caused by the development on which the fees were levied. As necessary, the fees will be used to provide interim housing for children generated by new development and for other school-related considerations relating to the District's ability to accommodate enrollment growth generated from new development as permitted by law. Likewise, fees will also be used for other indirect and support services related to construction and reconstruction of School Facilities necessitated by growth resulting from new development. Projects (and other school-related considerations) include, without limitation, the following:

Project	**Estimated Cost**
1. Justification Study	$20,000.00
2. School Facilities Needs Analysis	$40,000.00
3. New Classrooms, Classroom Expansions, Expansion of Core Facilities Districtwide	$289,173,787.00
4. Portable Leases for Interim Housing Districtwide	$722,481.50

Note: The District has commissioned site facility condition assessments, site master planning, and a districtwide, comprehensive master facilities plan, which includes a plan for funding the District's long-term facility needs. These documents include lists of recommended projects, in order of need and priority as adopted by the Board of Trustees June 23, 2022. The District commissioned an updated master plan and presented the updated master plan to the Board of Trustees on April 17, 2025.

The District further incorporates the facts and findings set forth in Resolution No. 2024-2025.04, dated August 8, 2024; 2022-2023.20, dated January 19, 2023; Resolution No. 2022-2023.14, dated December 8, 2022; Resolution No. 2019-2020.40, dated June 11, 2020; and Resolution No. 2014-2015.28, dated June 9, 2015, which are collectively referred to as the "School Facilities Fee Resolutions", and are incorporated herein by reference. The District further incorporates the facts and findings set forth in the: (i) School Facility Fee Justification Report for Residential, Commercial & Industrial Development Projects, dated June 2024; (ii) School Facility Fee Justification Report for Residential, Commercial & Industrial Development Projects, dated November 2022, and the Addendum thereto, dated January 4, 2023; (iii) School Facility Fee Justification Report for Residential, Commercial & Industrial Development Projects, dated June 2020; and (iv) School Facility Fee Justification Report for Residential, Commercial & Industrial Development Projects, dated April 2015, which are collectively referred to as the "Justification Studies", and are incorporated herein by reference.

B. REASONABLE RELATIONSHIP BETWEEN DEVELOPER FEE & PURPOSE (Gov. Code, §66001(d)(1)(B)): There is a reasonable relationship between the Developer Fees charged for residential and commercial/industrial development and the purposes for which they will be expended, as described in Paragraph A, in that the students that are generated by residential and commercial/industrial development will be accommodated by the School Facilities for which the Developer Fees are expended. The District is currently over capacity and does not have any excess capacity to house students in its current facilities, does not have adequate facilities to accommodate students from new development, and thus there is a reasonable relationship between the Developer Fees charged and the need for construction and reconstruction, including refurbishment, of School Facilities. The Developer Fees collected do not exceed the cost of accommodating students generated by development. Rather, the Developer Fees only partially mitigate the impact caused by residential and commercial/industrial development and do not adequately fund the School Facilities necessary to accommodate student growth.

The District further incorporates herein the facts and findings set forth in the School Facilities Fee Resolutions and Justification Studies.

C. ANTICIPATED SOURCES & AMOUNTS OF FUNDING TO COMPLETE FINANCING OF INCOMPLETE PROJECTS (Gov. Code, §66001(d)(1)(C)): With respect to only that portion of the Developer Fees Fund remaining unexpended at the end of the 2025-2026 fiscal year, the sources and amounts of Anticipated Funding to complete financing of any incomplete improvements identified in Paragraph A are as follows:

Anticipated Source of Funding	Anticipated Amount of Funding

4. State Eligibility Funding Received ($ in Possession of District)	$1,222,335
5. Developer Fees	$7,000,000
6. Special Reserve for Capital Outlay	$0
Total Anticipated Funding:	$280,237,930

Note: The District has commissioned site facility condition assessments, site master planning, and a district-wide, comprehensive master facilities plan, which also includes a plan for funding the District's long-term facility needs. These documents include lists of recommended projects, in order of need and priority as adopted by the Board of Trustees June 23, 2022. The District commissioned an updated master plan and presented the master plan to the Board of Trustees on April 17, 2025. Developer Fees will be included in the funding model, to address construction/renovation (refurbishment) needs resulting from increased student enrollment due to development.

D. APPROXIMATE DATE THAT ANTICIPATED FUNDING IS EXPECTED (Gov. Code, §66001(d)(1)(D)): With respect to only that portion of the Developer Fees Fund remaining

unexpended at the end of the 2024-2025 fiscal year, the following are the approximate dates on which the Anticipated Funding referred to in Paragraph C above is expected to be deposited into the Fund:

Anticipated Source of Funding	Approximate Dates Funding Expected
