School Enrollment Trends

Public vs. Private Enrollment by Grade – 2020 vs 2025

The graphs below show the trends in enrollment in public vs. private schools for school-aged children within the district, Oakland County, and the State. Within the district, public schools have a lower share of students than private when compared to the county and state for every grade cohort. Public school enrollment share has increased slightly for Kindergarten, grades 1-4, 5-8, and 9-12 but decreased for Preschool for the district from 2020 to 2025. Capture percentages have improved from 2020 to 2025 in all grade bands.
