Mr. Nathan Hilborn - Treasurer

November 17, 2026

Dear Preschool Parents and Guardians,

We are writing to inform you that the Triad Local Schools preschool program has been selected by the Department of Children and Youth to participate in an upcoming Desk Review.

This Desk Review is a standard component of a comprehensive monitoring process designed to ensure that our preschool program maintains full compliance with the high standards of instruction and special education services required under both federal and state laws. Because your child receives special education services through our preschool program, we want to keep you informed about our ongoing commitment to program quality and regulatory accountability.

The review will be conducted in collaboration with members of our preschool team and will be led by Triad's Director of Student Services, Lee Ann Claypool. As part of this process, perception surveys will be shared in the upcoming months to ensure that all stakeholders—including families—have representation and a voice in this review. Please be assured that this administrative review will not disrupt your child's daily classroom routine, instruction, or support services.

If you have any questions regarding this monitoring process or your child's preschool program, please contact Miss Claypool directly at (937) 826-0231.

Thank you for your continued partnership and support of Triad Local Schools.

Sincerely,

Lee Ann Claypool

Lee Ann Claypool
Director of Student Services
