ASSESSMENT OVERVIEW

- New Jersey Student Learning Assessments- Spring 2026
- NJSLA-A and NJSLA-S
- Assessment Scoring: Performance Level Cut Scores were determined after assessments were taken
- Performance Level Cut Scores: Different every grade level and subject area
- An Adaptive Test is an assessment tool that determines future questions based on a student's responses to prior questions, creating a more personalized experience for each learner. This approach can help reduce testing anxiety by presenting students with questions closer to their current level, encouraging confidence and focus. An adaptive assessment measures each student's knowledge with greater precision since students receive more items closer to their current level.
- Many students have participated in adaptive testing. The i-Ready Assessment is an example of adaptive testing.
- Everyone is tested on the same standards.
- The test difficulty adjusts, but the content does not.
- Only grade-level items count toward the score.
