# *Four Cities Compact*

Barberton • Copley - Fairlawn • Norton • Wadsworth

Dear Student:

This is the 34th year that the Four Cities Compact will induct members for the National Technical Honor Society.

The purpose of the National Technical Honor Society is to promote service, leadership, honesty, career development, and skilled workmanship; to reward student achievement; to encourage and assist student educational and career goal setting; to promote a stronger linkage between local career and technical institutions and business and industry; and to promote the image of Career and Technical Education in America.

Eligibility for membership is based on a student having at least an A- grade or better in their career-technical course and a minimum of a 3.00 cumulative GPA for all classes. In addition to grades, the other qualifications for membership include 95% attendance, no discipline issues, fees paid in full (in both program and home district), a desire to pursue further study in your career and technical field, responsibility, high moral character, positive attitude, leadership and participation in extracurricular and/or community activities, and successful completion of the online application. Your application must include a paragraph which describes your experience in your career technical program and how you anticipate that experience will impact your future.

In addition to your application, you will need a teacher recommendation from an academic teacher in your home district. The teacher can be from any academic course during your high school years. Teacher recommendations must be completed online by **Friday, January 8, 2027**. You can request a recommendation by handing out or emailing the attached form to an academic teacher in your home district, or by sharing this link: **https://bit.ly/teacher2027nths**

The link to the online application can be found on the Compact website listed under *Student*, or type the following into your web browser: **https://bit.ly/2027nths**

It is your responsibility to check with your building NTHS advisor (listed below) that both teacher recommendation forms have been received.
