D90 SAFETY & SECURITY

NEWSLETTER

Safety Reminders

As the end of the year approaches, let's refresh and reduce complacency.

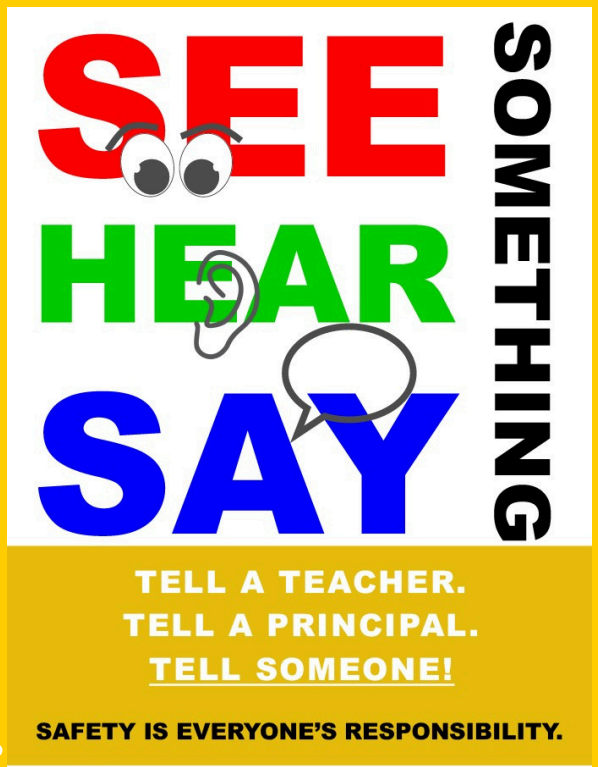

- Refer to the See something, Say something attachment. Do not hesitate to report suspicious persons or activity.
- Be extra mindful of securing exterior doors when exiting the building. We have much more foot traffic and outdoor activities in the warmer weather.
- Report any door or radio issues to your security officer. **Always carry your radio with you!**
- Active supervision- Be seen, Be alert, Be mobile.

Summer Security Projects

The following proejcts are a result of our successful C.O.P.S grant :

- Collaborative Response Graphics (CRG) mapping
- Installation of new indicator push button door hardware (Kampmeyer & Schaefer)
- Exterior greenspace cameras at all buildings

See something, Say something.

Standard Response Protocol
