HomeworkCA Powered by tutor.com

How to get started with Homework Help, Test Prep, and More

Ask a Question

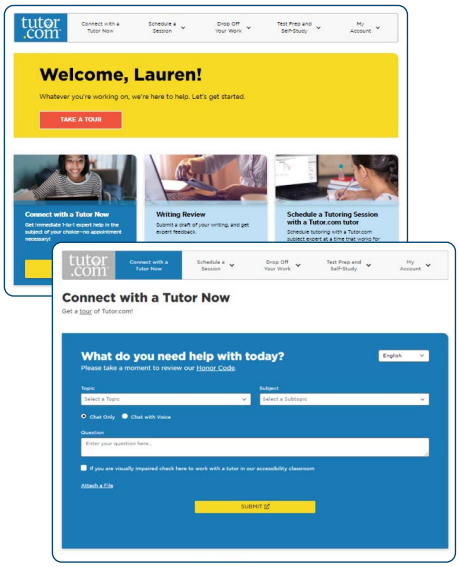

To access HomeworkCA:

Head to HomeworkCA.com and select the county that you live in. Then select your local library from the dropdown menu. Once you've filled that out, hit "Connect now" to launch into your HomeworkCA program!

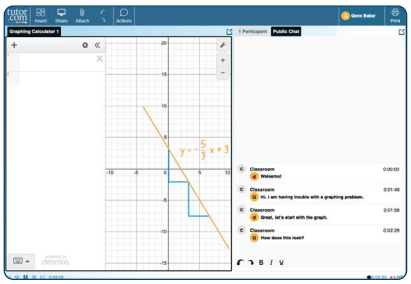

Select your language, topic, subject, and grade level and ask your question. You can share a specific problem or let the tutor know what concept you need help with. Here are some examples of questions you might ask:

- *I'm stuck on my Geometry homework.*
- *I need help with my assignment on gas laws.*
- *Can you help me format my paper in MLA?*

When you're in our online classroom, you can use text- and/or voice-chat to communicate with your tutor. You can also share files or assignments you'd like to discuss. You and your tutor will be able to look at your work together in the classroom.

Get Connected with a Tutor

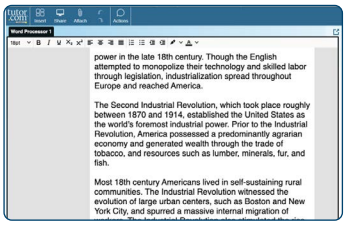

Click on the SUBMIT button to quickly connect with an expert tutor. The tutoring classroom will pop up in a new window.

When you are using the whiteboard, you can draw, erase, add shapes, and change colors to help your tutor see what you're working on. The classroom also includes a graphing calculator and text editor that you can use if you are working on complex math or writing assignments. Use these tools by clicking the buttons above the whiteboard.

Get Writing Support

Our drop-off review service allows you to get help from a tutor without having a live session. Upload any writing assignment you need help with, and a tutor will send you helpful feedback within a day. ***Remember to remove your name from any assignment you share!***

Connect with a tutor anytime. HomeworkCA is here to help!

This project is supported in part by the U.S. Institute of Museum and Library Services under the provisions of the Library Services and Technology Act, administered in California by the State Librarian.
