2026-27 School Year
Health Insurance Coverage Verification

Dear Parent or Guardian:

Keeping our students safe is a matter of critical importance to all of us. Even so, accidents do happen, and school-related injuries to active young people are not uncommon. To help our parents access and pay for the medical care needed after a covered injury or emergency sickness occurs, all enrolled students are provided with blanket student accident medical expense insurance. The Insurance is meant to assist with eligible expenses left uncovered by any other applicable primary insurance or health plan.

Full details on the program are provided within the attached brochure including an explanation of what is covered, what is excluded, requirements and limitations, how to file a claim and other important information. Parents are strongly encouraged to review this information before an injury happens.

Note: To preserve potential claim eligibility, school-related injuries should be reported as soon as possible to school officials. Medical or hospital care must commence within 120 days from the date of injury.

Also provided within the brochure are details on optional plans for students to cover them 24/7…both in and outside of school. Plans offered are:

Dental Accident Plan – Covers dental injuries up to $75,000. Cost is $11 for the school year.

Full-Time (24/7) Accident Plan – Covers medical and dental injuries up to $50,000. Cost is $125 for the school year.

Student Accident & Sickness Plan – Covers injuries up to $200,000 and sickness up to $50,000. Initial amount due $190 and $308 Bi-Monthly Rate

The brochure provides enrollment instructions. Enrollment can also be done online at www.myers-stevens.com.

If you have any questions about the blanket student accident insurance provided, the optional plans or how to file a claim, please contact the program administrator Myers-Stevens & Toohey at (800) 827-4695.

We hope that you and your family have a safe and successful 2026-2027 school year!
