Title: **Special Education and Related Services for Eligible Students**
Code: 2161
Section: WSSDA Model Policies
Section: 2000 - Instruction

The board recognizes that students whose disabilities adversely impact educational performance and who require specially designed instruction can improve their educational performance when they receive special education and related services tailored to fit their needs. The district adopts the state's full educational opportunity goal to provide students in need of special education services with a free appropriate public education.

Special education programs for eligible students will be an integral part of the general educational programs of this district and will be operated in compliance with federal and state requirements governing special education. The district will provide a continuum of placement options, which may include services within and outside the district depending on the student's needs.

Not all students with disabilities are eligible for special education services. The needs of students with disabilities will be addressed individually and, if appropriate, students will be provided accommodations, modifications, and/or related aids and services as required under Section 504 of the Rehabilitation Act of 1973 in accordance with district policy and procedures.

Mediation or Resolution Agreements

The board authorizes the superintendent or a designee to bind the district to a mediation or resolution agreement.

The superintendent or designee will develop and maintain special education procedures necessary to implement this policy. This policy and the procedures will be available to the public.
